Andy Field Spss Moderation Mediation Regression:

Discovering Statistics Using IBM SPSS Statistics Andy Field, 2013-02-20 Lecturers/instructors request a free digital inspection copy here. With a little help from his weird band of characters, the Fourth Edition of the award-winning book continues with its unique blend of humour and collection of bizarre examples to bring statistics from first principles to advanced concepts well and truly to life using IBM SPSS Statistics. Lecturers with WebAssign can manage and monitor your students' progress quickly and easily online or give them more opportunities to practise. Ideal for short courses, choose to use WebAssign alongside the Fourth Edition of Andy Field's textbook to quickly set up courses and schedule assignments using the 2159 questions available and track individual performance so you can spot in an instant where more instruction or practice is needed. If not using for formal assessment, WebAssign still lets you set questions for your students to practise over and over again. They get instant feedback and also links to the relevant chapter or section in the integral ebook to help them work out the correct solution. For more information on how to integrate WebAssign into a forthcoming course or to arrange a class test, please contact your local SAGE representative for more details. Students, please note access to WebAssign is dependent not only on the purchase of a student access code (ISBN 9781446273043) but also a username, institution code, and password supplied by your course leader/instructor. SAGE MobileStudy: study where and when you like. Scan any QR code within the book to access revision material on a smartphone or tablet, such as Cramming Sam's Study tips, flashcard glossaries, interactive multiple choice questionnaires, and more. Click here to take a look. If you're accessing the site from a desktop, you'll be taken to the Companion Website; instead, look out for the MobileStudy icon to show you which pages are also available on the MobileStudy site. See how Andy's book is changing the landscape for textbooks through the use of technology. Support materials for a wide range of disciplines: Education and Sport Sciences lecturer support materials with enhanced ones for Psychology, Business and Management, and the Health Sciences on the enhanced Companion Website make the book even more relevant to a wider range of subjects across the social sciences and where statistics is taught to a cross-disciplinary audience. Other major new updates include: Now fully compatible with recent IBM SPSS Statistics releases. Two new characters: Statistical cult leader Oditi provides students with access to video clips via his Lantern to help further understanding of statistical SPSS concepts, while Confusius helps students to make better sense of statistical terms. The enhanced Companion Website offers plenty of lecturer and student material to use in conjunction with the textbook. These include PowerPoints and subject-specific testbanks for lecturers, as well as answers to the Smart Alex tasks at the end of each chapter, datafiles for testing problems in SPSS, flashcards of key concepts, self-assessment multiple choice questions, and online videos of key statistical and SPSS procedures discussed in the textbook for students. Slater, Leslie B. Snyder, 2008 A must have volume for every communication researcher's library The SAGE Sourcebook of Advanced Data Analysis Methods for Communication Research provides an introductory treatment of various advanced statistical methods applied to research in the field of communication Written by authors who use these methods in their own research each chapter gives a non technical overview of what the method is and how it can be used to answer communication related questions or aide the researcher dealing with difficult data problems Students and faculty interested in diving into a new statistical topic such as latent growth modeling multilevel modeling propensity scoring or time series analysis will find each chapter an excellent springboard for acquiring the background needed to jump into more advanced technical readings

Applying Regression and Correlation Jeremy Miles, Mark Shevlin, 2000-11-24 This book takes a fresh look at applying regression analysis in the behavioural sciences by introducing the reader to regression analysis through a simple model building approach The authors start with the basics and begin by re visiting the mean and the standard deviation with which most readers will already be familiar and show that they can be thought of a least squares model The book then shows that this least squares model is actually a special case of a regression analysis and can be extended to deal with first one and then more than one independent variable Extending the model from the mean to a regression analysis provides a powerful but simple way of thinking about what students believe are the more complex aspects of regression analysis The authors gradually extend the model to include aspects of regression analysis such as non linear regression logistic regression and moderator and mediator analysis These approaches are often presented in terms that are too mathematical for non statistically inclined students to deal with Throughout the book maintains a conceptual non mathematical focus Most equations are placed in an appendix where a detailed explanation is given to avoid disrupting the flow of the main text This book will be indispensable for anyone using regression and correlation from undergraduates doing projects to postgraduate and researchers
