The Fabrication of American Literature Lara Langer Cohen, 2011-11-29 Literary histories typically celebrate the antebellum period as marking the triumphant emergence of American literature But the period s readers and writers tell a different story they derided literature as a fraud an imposture and a humbug and they likened it to inflated currency land bubbles and quack medicine Excavating a rich archive of magazine fiction verse satires comic almanacs false slave narratives minstrel song sheets and early literary criticism and revisiting such familiar figures as Edgar Allan Poe Davy Crockett Fanny Fern and Herman Melville Lara Langer Cohen uncovers the controversies over literary

fraudulence that plagued these years and uses them to offer an ambitious rethinking of the antebellum print explosion She traces the checkered fortunes of American literature from the rise of literary nationalism which was beset by accusations of puffery to the conversion of fraudulence from a national dilemma into a sorting mechanism that produced new racial regional and gender identities Yet she also shows that even as fraudulence became a sign of marginality some authors managed to turn their dubious reputations to account making a virtue of their counterfeit status This forgotten history Cohen argues presents a dramatically altered picture of American literature s role in antebellum culture one in which its authority is far from assured and its failures matter as much as its achievements
