

Answers to examination-style questions

Answers	Marks	Examiner's tips
1 (a) diffusion/movement of water; through a partially-permeable membrane; from less negative to more negative/from higher water potential to lower water potential;	3	If you find water potential difficult, try drawing a numbered line starting at 0 and going down with negative numbers. Pure water has a water potential of 0. All solutions have a negative water potential.
(b) (i) 5.55 cm (<i>allow 5.5 or 5.6 only if supported by correct working</i>); $5/0.9 = 5.55$;	2	Correct answer = 2 marks. Correct working but incorrect answer = 1 mark. Always show which numbers you are using for a calculation. You will be credited for the correct working even if you make a mistake working out the final answer.
(ii) 1. T anywhere to left of 0.3 M; 2. W at 0.3 M;	1	
2 (a) (i) microvilli (<i>reject brush border</i>);	1	
(ii) increased surface area (for diffusion);	1	
(b) (i) 90 000 $9 \times 1000/0.1 = 90\,000$;	2	Correct answer = 2 marks. Correct working but incorrect answer = 1 mark. Use the scale bar. Measure the length using a ruler. Length of bar = 9 mm, convert to micrometres by multiplying by 1000 then divide by stated length of scale bar.
(ii) electron microscope has a greater resolving power/objects closer together can be distinguished; electron (beams) have a shorter wavelength;	2	
(c) short diffusion pathway/short pathway to the centre/large surface area to volume ratio for faster/more diffusion;	1	
3 (a) passive/do not require energy/ATP; movement down a concentration gradient/ by diffusion; go through phospholipid (bilayer)/not by protein/carriers;	2	Make sure your answers are correct for oxygen and water. If a word is in bold print, read it very carefully! It is like that for a reason!
(b) active transport; occurs when oxygen present because energy/respiration required <i>OR</i> against a concentration gradient because there is no uptake in curve Z;	2	As soon as you see oxygen or respiration involved with transport, you should be thinking about active transport as this is the only process that uses energy.
