Aqa June 2013 Grade Boundaries:

2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

The Coalition Effect, 2010-2015 Anthony Seldon, Mike Finn, Ilias Thoms, 2015-03-26 The essential verdict on Britain's first coalition government since the Second World War delivered by an unrivalled team of experts

Ministering to Education Leighton Andrews, 2014-10-15 Important and highly readable of interest around the world because it enables the reader to see education reform from a minister's perspective as very few books have done before Sir Michael Barber Ministering to Education is the first book by a former Welsh Government Minister since the creation of the National Assembly in 1999 As Education Minister in the Welsh Government from 2009-2013 Leighton Andrews was twice named Welsh Politician of the Year This is his enlightening frank and readable account of the education reforms initiated in the early years of Carwyn Jones's period as First Minister and the complex challenges that still lie ahead to make the Welsh education system as good as any in the world Offering the inside story on the reform journey Wales embarked upon Andrews controversially reveals how he deliberately brought the media into the debate on school ranking He debates the decision to regrade exam results when English Language GCSE exams came under fire in 2012 and the effect such decisions have had in setting the education systems of England and Wales on diverging paths Student tuition fees were another area where Andrews led Wales in a different direction from England Following Michael Gove's departure as Westminster Education Secretary Andrews questions whether Wales or England has fared better and suggests what should happen next **Teacher Education through Active Engagement** Lori Beckett, 2013-12-04 Teacher Education through Active Engagement identifies and addresses a contemporary issue the ways in which teaching and teacher education are articulated by politicians civil servants business leaders and educational entrepreneurs intent on profit making in the current global neoliberal policy context This is often characterised by narrow and ill conceived ideas about teacher characteristics and competences recruiting and fast tracking graduates from elsewhere into the profession the reform of teacher training with less emphasis on theory and academic study a narrow focus on teachers core skills and the promotion of training in model teaching schools In this book contributors challenge this conceptualisation and demonstrate practitioners necessary intellectual activity to wrest back professional control By drawing on practice focused research carried out in sites of educational policy and practice each chapter exemplifies for teachers student teachers and teacher educators the sort of knowledge work to coordinate a professional reply to non educationalists who dictate the terms of teaching and teacher education The book provides directions for encouraging critical thinking analytical skills and political activism which consider the needs and interests of diverse children and young people in real classrooms real schools and real communities Illustrated throughout with practice focused research and drawing on the historical case of Winifred Mercier and her colleagues at the City of Leeds training college who challenged the establishment to leave a legacy of professional control the book will appeal to practitioners academics and researchers in the fields of teacher education and education studies
