been proposed by others and attempt to move forward our total understanding of the process of the professional development of teachers for educational change In conclusion we will look at some current national practice in professional development concentrating on the recent English experience of introducing strategies into schools but referring also by way of contrast to the situation in the United States

WHAT S THE PROBLEM Why has the professional development of teachers already exercised so many good minds for so long And how can we justify adding another book to this field The answer to both questions must lie in the continuing demand from society in general at least as interpreted by politicians and newspaper editors for improvements in the quality of education

Modern Languages in the Primary School Philip Hood,Kristina Tobutt,2009-06-04 *Modern Languages in the Primary School* tackles these questions challenging current perceptions of primary modern languages arguing that modern languages should be fully integrated into the primary curriculum and looking at ways in which this can be achieved In this practice oriented book Philip Hood and Kristina Tobutt examine ways in which language learning can be made a rich experience for all They offer ideas on how to start language programs in schools or enhance those which are already in place
