Prohibition, Religious Freedom, and Human Rights: Regulating Traditional Drug Use Beatriz Caiuby Labate, Clancy Cavnar, 2014-03-25 This book addresses the use and regulation of traditional drugs such as peyote ayahuasca coca leaf cannabis khat and Salvia divinorum The uses of these substances can often be found at the intersection of diverse areas of life including politics medicine shamanism religion aesthetics knowledge transmission socialization and celebration The collection analyzes how some of these psychoactive

plants have been progressively incorporated and regulated in developed Western societies by both national legislation and by the United Nations Drug Conventions. It focuses mainly but not only on the debates in court cases around the world involving the claim of religious use and the legal definitions of religion. It further touches upon issues of human rights and cognitive liberty as they relate to the consumption of drugs. While this collection emphasizes certain uses of psychoactive substances in different cultures and historical periods, it is also useful for thinking about the consumption of drugs in general in contemporary societies. The cultural and informal controls discussed here represent alternatives to the current merely prohibitionist policies which are linked to the spread of illicit and violent markets. By addressing the disputes involved in the regulation of traditional drug use, this volume reflects on notions such as origin, place, authenticity, and tradition, thereby relating drug policy to broader social science debates.

The Incredible Story of Cooking Benoist Simmat, 2024-09-10. For the first time, a graphic novel tells the story of humanity through the evolution of cuisine. From the discovery of fire to organic cooking, this book is aimed at all curious people and foodies. By the authors of *Wine: A Graphic History*. As soon as humans mastered fire, they invented cooking. Did you know that Sapiens invented steam cooking and freezing? That the Mesopotamians created soups, bread, beer, ovens? That gastronomy and tableware have been symbols of political power? These great discoveries changed the world but also the way we eat. From America, the conquistadors brought spices, peppers, potatoes. Portuguese missionaries brought the frying technique to distant samurai who made the first tempuras. These are the beginnings of globalization. In the 19th century, with the industrial revolution, capitalist cuisine emerged; it was the beginning of the food industry. In the 21st century, the organic and buy local movements are shown as a reaction against the harmful effects of this culinary and gastronomic standardization. To finish in style, find twenty-two recipes for dishes mentioned throughout our story that you can make at home.
