Tales of the Ex-Apes Jonathan Marks, 2015-09-08 This book is about the irreducibility of human evolution to purely biological properties and processes for human evolution has incorporated the emergence of social relations and cultural histories that are unprecedented in the apes Human evolution over the last few million years has involved the transformation from biological evolution into biocultural evolution For several million years human intelligence dexterity and technology all co evolved with one another although the first two are organic properties and the last is inorganic Over the last few tens of thousands of years the development of new social roles notably spouse father in laws and grandparents have been combined with new technologies and symbolic meanings to produce the familiar human species This leads to a fundamental evolutionary understanding of humans as biocultural ex apes reducible neither to an imaginary cultureless biological core nor to our ancestry as apes Consequently there can be no natural history of the human condition or the human organism which is not a natural cultural history Provided by publisher Power from Below in Premodern Societies T. L. Thurston, Manuel Fernández-Götz, 2021-10-21 This volume challenges traditional narratives on power moving away from elite centered models and focusing instead on the archaeology of commoners

The Riddle of

Intelligence John Edward Terrell,Eugene Anderson,Foreman Bandama,Abhik Ghosh,2025-06-01 There is little agreement today on what it takes to be intelligent Yet this word is widely believed to be about something real mostly biological and important From this popular perspective intelligence is also something you can have a lot of and luckily find yourself being labeled as a genius Or sadly something you do not have nearly enough of and so find yourself being seen by others at least behind your back as silly stupid or plainly idiotic Looked at closely however it turns out this word belongs more in the realm of traditional folklore than modern science *Modeling the Past* John Terrell,Mark Golitko,Helen Dawson,Marc Kissel,2023-03-10 How do researchers use dynamic network analysis DYRA to explore model and try to understand the complex global history of our species Reduced to bare bones network analysis is a way of understanding the world around us a way called relational thinking that is liberating but challenging Using this handbook researchers learn to develop historical and archaeological research questions anchored in DYRA Undergraduate and graduate students as well as professional historians and archaeologists can consult on issues that range from hypothesis driven research to critiquing dominant historical narratives especially those that have tended to ignore the diversity of the archaeological record
