on the Sin & the Evils of Covetous ... Thomas Dick,1884 **Female Oppression in "The Bell Jar" and "A Thousand Splendid Suns"** Florian Kollmeier,2013-06-03 Pre University Paper from the year 2013 in the subject Literature

Comparative Literature grade A language English abstract The aim of this essay is to discuss the notion that the representation of female oppression in literature transcends cultural differences by looking at The Bell Jar and A Thousand Splendid Suns In order to discuss this notion I researched background information about the representation of female oppression in literature and the different cultures represented in the texts The essay focuses on female sexuality and the position of women in relationships as indicators for oppression in society In order to further compare the differences in the nature of the oppression of women other works and literary critics have been considered Furthermore the use of literary techniques such as stylistic devices and symbolism has been examined to trace connections between the works The conclusion that was found was that both The Bell Jar and A Thousand Splendid Suns comment on female oppression in their cultures The different ways of discussing and presenting the oppression were found to be due to the different contexts of composition Thinking about and Enacting Curriculum in "Frames of War" Rahat Naqvi,Hans Smits,2011-11-15 Thinking about and Enacting Curriculum in Frames of War edited by Rahat Naqvi and Hans Smits responds to the challenges Judith Butler posed about the precariousness of life and questions about how we apprehend and take up ethically our responsibilities for those who are considered Other The notion of enframing asks us to consider what conditions our understanding of others and how we open up what curriculum concepts and theories mean in the contexts of complex conditions for educational practices such as recent wars which have brought to forefront critical questions of human recognition and the precariousness of the conditions in which human flourishing is possible An overarching objective of this book is the meaning of a call to ethics and how discussion of framing and frames is a provocation to think about our responsibilities as curriculum scholars and practitioners The authors take up the limits of knowledge and present the challenge to curriculum theory to think in terms of not just understanding the frames through which we apprehend the Other but also how we might re frame our thinking as a radical call to responsibility Each chapter in Smits and Naqvi s Thinking about and Enacting Curriculum in Frames of War illustrates these concepts in diverse ways but with common interest and concern considering how curriculum is and ought to be fundamentally engaged with re thinking our frames of apprehension

Understanding Religion: Some Approaches and Attitudes Bosudha Bandyopadhyay,2023-03-29 The term religion lends itself to various meanings and interpretations depending upon the nature education and the level of consciousness and conscience of a particular human being who actually harbors the idea or practices of his faith It is evident therefore that the concept of religion in human life and society appears to be most controversial and a complex thing which has variable

meanings and significance to various human minds It is indeed pitiful to observe that in the mountain maelstrom of materialism man develops the tendency to ignore or undermine the edifying and enriching experience of religions and prefers to stay away from the path of the nourishment of his soul without which both human existence and progress are seriously endangered The practice of spiritual uplift is therefore an indispensable condition of human progress and civilization for a life conditioned by and dependent on mere material development is deemed to be fraught with utter futility The essays chosen in this volume by and large have been written by scholars with a view to unfolding either the virtues or shortcomings of many of the principles and practices of different religions Some of the essays have sought to examine the causes and reasons behind the unhealthy views and superstitions and also to reveal a good and elevating virtues the cultivation of which may enlighten us for the realization of the noble ideas and ideals of life The writers have made an honest attempt to look at the grim reality of some religious superstitions in order to find out the hidden light that rise beyond the boundary of blind beliefs and faiths Such a quest is always worthwhile for a sincere seeker in quest of truth and light The authors of the essays have taken pains to diagnose the deep seated malady of blind belief fanaticism and dogmatisms

The Soul of Creative Writing Richard Goodman, 2017-07-05

I have a faith in language, said the poet W. S. Merwin. It's the ultimate achievement that we as a species have evolved so far. Language is a deep ocean of living words as varied as undersea life. It is a gift inherited by each person when he or she is born; it can be corrupted and regulated but it cannot be owned. It is an enormous, complex, inexhaustible gift. *The Soul of Creative Writing* is a tribute to language and to its potentials. It explores the elements of language: style, rhythm, sound, and the choice of the right word. Richard Goodman paints an image of how language can produce a life and meaning that otherwise cannot exist in the symbols themselves. Goodman's stunningly creative collection was written after a lifetime of working and struggling with language. He collects rich examples from writers of the past and present, both great and small, and uses them to illustrate how each element of our written language can be used. The book begins with an analysis of words and how they can be used to create music on the page. Goodman uncovers the strength of words, writing about the shades of meaning that make the search for the exact word both arduous and immensely rewarding. He discusses how to find the proper title and how to find a fitting subject. He shows how to create nonfiction work that is vivid and memorable through the use of the same techniques fiction writers employ. Goodman's volume is written with humor and clarity, with fascination and reverence. Writers will find it an indispensable source of creative inspiration and instruction. In Goodman's words, reading is a tour of a writer's efforts at manipulating language to create art, to create flesh and blood, mountains, cities, homes, and gardens out of inky symbols on the page. To literary critics, this book will be a guide to understanding the tools and devices of great writing.
