Aat Foundatin Accounting Pass Papers:

Frank Wood's A-Level Accounting Frank Wood, Alan Sangster, 2004 This edition of Frank Wood's A level Accounting has been restructured to match closely the AQA A level syllabus now covered in the first fifteen chapters. In particular coverage of partnership accounts now in one chapter, all company accounting is covered in one chapter and standard costing and variance is covered in a single chapter. The book builds on a first course in accounting and includes coverage of the more advanced aspects of financial and management accounting. As well as providing instruction and practice in the preparation of accounting information, the text stresses the need for students to understand the business reasons behind accounting techniques. A continuing strength of the book is the large amount of question material. Recent past questions from the main examining bodies are included as well as a useful guide to examination techniques at A level. Mastering Bookkeeping, 10th Edition Peter Marshall, 2017-04-06 The book explains the principles and practice of bookkeeping sequentially including The bank reconciliation Writing up the petty cash book Extracting a trial balance Accruals and prepayments Setting up a limited company Accounting for VAT Plus step by step guides to compiling a balance sheet depreciation accounting for bad and doubtful debts and much more. The 10th edition also includes significant enhancements to reflect the teachings of the principle bookkeeping institutes as they endeavour to raise the professional competence of their members. For example accounting staff are increasingly being required to extend their record keeping into management accounts areas. The new edition includes chapters on stock control and budgetary control accounting. In addition it will include more detailed guidance on the significance and importance of ratio analysis and statements of sources and application of funds plus the latest available IAB and ICB exam papers.
