A World Without Islam Graham E. Fuller, 2010 What if Islam never existed To some it s a comforting thought no clash of civilizations no holy wars no terrorists But what if that weren t the case at all In *A WORLD WITHOUT ISLAM* Graham E Fuller guides us along an illuminating journey through history geopolitics and religion to investigate whether or not Islam is indeed the cause of some of today s most emotional and important international crises Fuller takes us from the birth of Islam to the fall of Rome to the rise and collapse of the Ottoman Empire He examines and analyzes the roots of terrorism the conflict in Israel and the role of Islam in supporting and energizing the anti imperial struggle Provocatively he finds that contrary to the claims of many politicians thinkers theologians and soldiers a world without Islam might not look vastly different from what we know today Filled with fascinating details and counterintuitive conclusions *A WORLD WITHOUT ISLAM* is certain to inspire debate and reshape the way we think about Islam s relationship with the West

Christianity, Islam and Atheism

William Kilpatrick, 2012-09-26 For many Americans the attack on the World Trade Center on September 11 2001 was the first time they had considered Islam Were the terrorists motivated by the true dictates of their religion or had they hijacked Islam as well as the planes in a political cause unrelated to the teachings of Muhammad Christianity Islam and Atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions To meet the challenge from Islam Christians need to know more about the important differences between Islam and Christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar The time that Christians spend in pursuing common ground is time that Islamic activists will use to press their radical agenda In addition to challenging both the multicultural and common ground approaches William Kilpatrick also exposes the role played by atheists and secularists in advancing Islam Despite paying lip service to freedom radical secularists serve as enablers of radical Islam The civil liberties that the West

enjoys are the fruit of Christian civilization Kilpatrick argues and only a reawakened Christianity can defend them against Islam's advance

The Oxford Handbook of Postcolonial Studies Graham Huggan, 2013-09-12 The Oxford Handbook of Postcolonial Studies is a major reference work which aims to provide informed insights into the possible future of postcolonial studies as well as a comparative overview of the latest developments in the field

Observing the Observer Zahid Bukhari, Sulayman Nyang, 2012-01-01 THE collection of papers in this volume documents the study of Islam in American Universities Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U S with Muslim countries migration of Muslims into the country conversion of Americans to Islam U S interests in Arab oil resources involvement of Muslims in the American public square and the tragic events of 9 11 Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration multiculturalism and political turmoil nevertheless the state of Islamic Studies in America is far from satisfactory The issue needs to be addressed particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an Islam industry run primarily by fly by journalists think tank pundits and cut and paste experts

The Arab-American Handbook Nawar Shora, 2009 Tune up your knowledge of the Arab and Muslim worlds with this easy to read text The Arab American Handbook contains useful reference material and comment by a wide variety of participants and observers The book includes a thumbnail history the essentials of Islam social insights cultural norms The perfect tool for teachers employers travelers law enforcement Government workers and the general public will find that they can quickly penetrate the stereotypes and misconceptions to appreciate the tenor and nuance of Arab and Muslim life Without a better grasp of this subject the citizens of liberal democracies are unsafe at home and at a disadvantage in the global competition for hearts and minds
