

The book cover features a stylized illustration of a human figure from the waist up, rendered in a dark, almost black silhouette. The figure's head is replaced by a circular, multi-colored geometric shape, possibly representing a brain or a celestial body. The figure's arms are outstretched, and the hands are depicted with individual fingers. The background is a light beige color, overlaid with a complex network of thin, intersecting lines and small, colored dots (blue, orange, red, black) that resemble a celestial map or a network diagram. A dark blue vertical bar is visible on the left edge of the cover.

Wragg, 2021 A new exploration of the secular manuscripts and medieval medical texts associated with the York Guild and its members Produced in 1486 and subsequently augmented the Guild Book of the Barbers and Surgeons of York British Library Egerton MS 2572 is a unique record of the knowledge ambitions activities and civic relationships maintained by the Barbers and Surgeons Guild over a period of 300 years The manuscript s earliest folios contain images astrological tracts a plague treatise and a bloodletting poem To these were added early modern ordinances and oaths a series of royal portraits and the names of the Guild s masters and apprentices It is a rare survival of late medieval medical knowledge placed within a civic context This new multi

disciplinary examination of the York Guild Book presents a comprehensive edition of its content and a detailed study of the creation and use of this fascinating manuscript The York Guild Book was not owned by any one person but was intended to be representative of the types of manuscripts the Guild's members might have individually possessed The Guild's commission elevated their manuscript's functional content into something which could be proudly owned and displayed as is demonstrated by the stylishly executed pen and ink drawings two of which are possibly unique Through a contextualisation of the form and content of the manuscript the book articulates ideas about material culture and the ceremonial role of secular manuscripts whilst shedding new light on the dissemination and status of medieval medical texts
