Feminism Enchanted Yanbing Er, 2025-09-16 The feminist movement has long been guided by the promise of progress for women politically economically and in personal life But we live in a time when history appears to be moving backward into a more reactionary past How might feminist thought make sense of this plight without returning to the liberal Western framework of progressive reason Yanbing Er argues that the key to this predicament lies in the capacity of the literary imagination to invigorate feminist critical practice She reveals how a literary mode of enchantment fundamentally transforms feminist theory and praxis imagining new and surprising possibilities that had once been foreclosed by dominant paradigms of progress Enchantment illuminates forms of existence that have been lost erased or obscured allowing us to encounter both feminism and the world anew Er finds incantatory power in the works of writers such as Rivers Solomon Akwaeke Emezi Ruth Ozeki and Alexis Wright who disrupt hegemonic ways of thinking by summoning otherwise unimaginable ways of being Their works collectively present an immersive and expansive feminist imaginary that makes space for marginalized histories narratives and lifeworlds Elegantly written and boldly argued **Feminism Enchanted** shows how poetic language conjures alternative futures for feminist thought

The Story of "Me" Marjorie Worthington, 2018-11-01 Autofiction or works in which the eponymous author appears as a fictionalized character represents a significant trend in postwar American literature when it proliferated to become a kind of postmodern cliché The Story of Me charts the history and development of this genre analyzing its narratological effects and discussing its cultural implications By tracing autofiction's conceptual issues through case studies and an array of texts Marjorie Worthington sheds light on a number of issues for postwar American writing the maleness of the postmodern canon and anxieties created by the supposed waning of male privilege the relationship between celebrity and authorship the influence of theory the angst stemming from claims of the death of the author and the rise of memoir culture Worthington constructs and contextualizes a bridge between the French literary context from which the term originated and the rise of autofiction among various American literary movements from modernism to New Criticism to New Journalism The Story of Me demonstrates that the burgeoning of autofiction serves as a barometer of American literature from modernist authorial effacement to postmodern literary self consciousness
