Buy Now Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy Amazon is ubiquitous in our daily lives we stream movies and television on Amazon Prime Video converse with Alexa receive messages on our smartphone about the progress of our latest orders In Buy Now Emily West examines Amazon's consumer facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background becoming a sort of infrastructure that can be taken for granted Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy West shows how Amazon has cultivated personalized intimate relationships with consumers that normalize its outsized influence on our selves and our communities She describes the brand's focus on speedy and seamless ecommerce delivery represented in the materiality of the branded brown box the positioning of its book retailing media streaming and smart speakers as services rather than sales and the brand's image control strategies West considers why pushback against Amazon's ubiquity and market power has come mainly from among Amazon's workers rather than its customers or competitors arguing that Amazon's brand logic fragments consumers as a political bloc West's innovative account the first to examine Amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today's economy

Oil Sparks in the Amazon Patricia I. Vasquez, 2014-02-01 For decades studies of oil related conflicts have focused on the effects of natural

resource mismanagement resulting in great economic booms and busts or violence as rebels fight ruling governments over their regions hydrocarbon resources In *Oil Sparks in the Amazon* Patricia I Vasquez writes that while oil busts and civil wars are common the tension over oil in the Amazon has played out differently in a way inextricable from the region itself Oil disputes in the Amazon primarily involve local indigenous populations These groups social and cultural identities differ from the rest of the population and the diverse disputes over land displacement water contamination jobs and wealth distribution reflect those differences Vasquez spent fifteen years traveling to the oilproducing regions of Latin America conducting hundreds of interviews with the stakeholders in local conflicts She analyzes fifty five social and environmental clashes related to oil and gas extraction in the Andean countries Peru Ecuador and Colombia She also examines what triggers local hydrocarbons disputes and offers policy recommendations to resolve or prevent them Vasquez argues that each case should be analyzed with attention to its specific sociopolitical and economic context She shows how the key to preventing disputes that lead to local conflicts is to address structural flaws such as poor governance and inadequate legal systems and nonstructural flaws such as stakeholders attitudes and behavior at the outset Doing this will require more than strong political commitments to ensure the equitable distribution of oil and gas revenues It will require attention to the local values and culture as well

Global Environmentalism and Local Politics Maria Guadalupe Moog Rodrigues, 2012-02-01 What is the role played by local organizations in transnational environmental advocacy networks Global Environmentalism and Local Politics revisits this question by looking at transnational environmental activism in Brazil Ecuador and India Rodrigues investigates the internal politics of these networks focusing on their internal balance of power choice of strategies and distribution of resources among members at the international national and local levels Contrary to existing assumptions local organizations rather than international or national non governmental organizations are the key players in these networks while at the same time mere participation in transnational advocacy efforts does not necessarily lead to the empowerment of local organizations Participation may for example impose unanticipated political and technical burdens and despite their overarching common goal of environmental preservation network members may have different understandings of what environmentally sustainable development is and how it can be best achieved

Point of Sale Daniel Herbert, Derek Johnson, 2019-12-13 Point of Sale offers the first significant attempt to center media retail as a vital component in the study of popular culture It brings together fifteen essays by top media scholars with their fingers on the pulse of both the changes that foreground retail in a digital age and the history that has made retail a fundamental part of the culture industries The book reveals why retail matters as a site of transactional significance to industries as well as a crucial locus of meaning and interactional participation for consumers In addition to examining how industries connect books DVDs video games lifestyle products toys and more to consumers it also interrogates the changes in media circulation driven by the collision of digital platforms with existing retail institutions By grappling with the contexts in which we buy media Point of Sale uncovers the underlying tensions that define the contemporary culture industries
