Nikita Malevanny, 2019-08-30 This book analyzes regulatory models established in the field of online music distribution and examines their consistency with the overarching objectives of copyright law In order to do so the book takes a deep dive into the provisions of international treaties EU Directives as well as the German and US copyright systems and case law It subsequently scrutinizes the identified regulatory models from the standpoint of the copyright's objectives with regard to incentives rewards a level playing field and dissemination Lastly it endorses the improved market based statutory license as a preferable instrument in the online music field The book is intended for all readers with an interest in music copyright law Part I will especially benefit copyright scholars and practitioners seeking in depth insights into the current legal situation regarding streaming and downloading In turn Part II will above all appeal to scholars interested in law and economics and in the theoretical foundations of online music copyright Policy recommendations can be found in Part III Chokepoint Capitalism Rebecca Giblin, Cory Doctorow, 2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media Corporate concentration has breached the stratosphere as have corporate profits An ever expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both In Chokepoint Capitalism scholar Rebecca Giblin and writer and activist Cory Doctorow argue we're in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers From Amazon's use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook's siphoning away of ad revenues from news media and the Big Three record labels use of inordinately long contracts to up their own margins at the cost of artists chokepoints are everywhere By analyzing book publishing and news live music and music streaming screenwriting radio and more Giblin and Doctorow deftly show how powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book's second half Giblin and

Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late
