15 University Intake List Kenya:

The Status of Student Involvement in University Governance in Kenya Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya Privatisation and Private Higher Education in Kenya. Implications for Access, Equity and Knowledge Production Ibrahim O. Oanda, Fatuma N. Chege, Daniel M. Research and Development Abstracts* ,1984 **Kenyan Public Universities in the Age of Internationalization** Iddah Aoko Otieno,2018-06-20 This book presents a comprehensive institutional level analysis of a single public institution of higher education in the Republic of Kenya using the case study method of investigation It is the first case study to use both qualitative and quantitative research methodology to illuminate the experiences of Kenyan public universities with internationalization post independence Focusing on Kenya s oldest national public university the University of Nairobi s experimentation with internationalization Kenyan Public Universities in the Age of Internationalization is a first in the East African region The book argues that attempts by institutions of higher education in Africa to engage in internationalization with the much more older and well established IHEs in the developed world has perpetuated the colonial legacy that has relegated these institutions to the position of the Other in the new international order Several policy implications are offered on what it means to participate in internationalization from a marginal peripheral position The conventional assumption that political independence would bring to most African countries and by extension their national public universities a period of freedom from political economic and cultural subjugation and exploitation by the more powerful world nations has proved elusive This book is intended for a broad audience in the field of Comparative International Education The mixed research methods used in this book will certainly appeal to instructors students and general readers interested in understanding the experiences of historically marginalized developing World institutions of higher education with internationalization **Differentiation and Articulation in Tertiary Education Systems** Njuguna Ng'ethe,George Subotzky,George Afeti,2008-01-01 This title explores an area of tertiary education that is currently understudied this is the extent and nature of differentiation and articulation in African tertiary education systems The overall finding is that the binary system is dominant characterised by universities and polytechnics as distinct types of institutions Differentiation is clearly evident in Africa However though varied in nature and extent the differentiation is mostly horizontal as opposed to vertical Articulation on the other hand seems to be in its infancy as some universities in their admission requirements d Christian Higher Education Joel Carpenter,Perry L. Glanzer,Nicholas S. Lantinga,2014-03-07 This book offers a fresh report and interpretation of what is happening at the intersection of two great contemporary movements the rapid growth of higher education worldwide and the rise of world Christianity It features on site evaluative studies by scholars from Africa Asia North America and South America Christian Higher Education A Global Reconnaissance visits some of the hotspots of Christian university development such as South Korea Kenya and Nigeria and compares what is happening there to places in Canada the United States and Europe where Christian higher education has a longer history Very little research until now has examined the scope and direction of Christian higher education throughout the world so this volume fills a real gap *National Institutes of Health Annual Report of International Activities* John E.
