Course Number	Course Title	Prerequisites	Course Description	Units
210	Introduction to Computer Science	None	Introduction to the field of computer science, covering the history, theory, and applications of computing. Topics include algorithms, data structures, and the design and analysis of algorithms.	3
211	Discrete Mathematics	210	Study of discrete mathematical structures and their applications. Topics include set theory, combinatorics, graph theory, and logic.	3
212	Linear Algebra	210	Study of linear algebra, covering vector spaces, linear transformations, and matrices. Applications include computer graphics and machine learning.	3
213	Calculus	210	Study of calculus, covering differential and integral calculus. Applications include physics and engineering.	3
214	Probability and Statistics	210	Study of probability and statistics, covering random variables, distributions, and inference. Applications include data analysis and machine learning.	3
215	Computer Systems	210	Study of computer systems, covering operating systems, networks, and hardware. Applications include system administration and network engineering.	3
216	Artificial Intelligence	210	Study of artificial intelligence, covering search algorithms, knowledge representation, and machine learning. Applications include robotics and expert systems.	3
217	Computer Architecture	210	Study of computer architecture, covering the design and organization of computer systems. Applications include hardware design and system optimization.	3
218	Database Systems	210	Study of database systems, covering relational databases, query languages, and database management systems. Applications include data storage and retrieval.	3
219	Software Engineering	210	Study of software engineering, covering the development and maintenance of software systems. Applications include software development and testing.	3
220	Computer Security	210	Study of computer security, covering threats, attacks, and defense mechanisms. Applications include network security and cryptography.	3
221	Computer Graphics	210	Study of computer graphics, covering the rendering of 2D and 3D graphics. Applications include computer-aided design and animation.	3
222	Computer Networks	210	Study of computer networks, covering network protocols, routing, and network management. Applications include network engineering and system administration.	3
223	Computer Vision	210	Study of computer vision, covering image processing, feature extraction, and object recognition. Applications include robotics and autonomous systems.	3
224	Computer Speech Recognition	210	Study of computer speech recognition, covering speech processing, pattern recognition, and natural language processing. Applications include voice search and voice-controlled systems.	3
225	Computer Music	210	Study of computer music, covering digital signal processing, synthesis, and music information retrieval. Applications include digital audio and music analysis.	3
226	Computer Animation	210	Study of computer animation, covering the creation of animated characters and environments. Applications include film and video game development.	3
227	Computer Simulation	210	Study of computer simulation, covering the modeling and simulation of complex systems. Applications include engineering and scientific research.	3
228	Computer Modeling	210	Study of computer modeling, covering the development of mathematical models and their implementation. Applications include engineering and scientific research.	3
229	Computer Optimization	210	Study of computer optimization, covering the design and analysis of algorithms for optimization problems. Applications include operations research and machine learning.	3
230	Computer Cryptography	210	Study of computer cryptography, covering encryption, decryption, and digital signatures. Applications include secure communication and data protection.	3
231	Computer Forensics	210	Study of computer forensics, covering the investigation and analysis of digital evidence. Applications include law enforcement and cybersecurity.	3
232	Computer Ethics	210	Study of computer ethics, covering the moral and legal implications of computing. Applications include policy development and ethical decision-making.	3
233	Computer History	210	Study of computer history, covering the development of computing technology and its impact on society. Applications include historical research and education.	3
234	Computer Philosophy	210	Study of computer philosophy, covering the philosophical foundations of computing. Applications include theoretical research and education.	3
235	Computer Law	210	Study of computer law, covering the legal aspects of computing. Applications include legal research and policy development.	3
236	Computer Economics	210	Study of computer economics, covering the economic impact of computing. Applications include economic research and policy development.	3
237	Computer Sociology	210	Study of computer sociology, covering the social impact of computing. Applications include social research and policy development.	3
238	Computer Psychology	210	Study of computer psychology, covering the psychological aspects of computing. Applications include human-computer interaction and user experience design.	3
239	Computer Linguistics	210	Study of computer linguistics, covering the intersection of computing and linguistics. Applications include natural language processing and computational linguistics.	3
240	Computer Music Theory	210	Study of computer music theory, covering the theoretical foundations of computer music. Applications include music analysis and composition.	3
241	Computer Animation Theory	210	Study of computer animation theory, covering the theoretical foundations of computer animation. Applications include animation research and education.	3
242	Computer Simulation Theory	210	Study of computer simulation theory, covering the theoretical foundations of computer simulation. Applications include simulation research and education.	3
243	Computer Modeling Theory	210	Study of computer modeling theory, covering the theoretical foundations of computer modeling. Applications include modeling research and education.	3
244	Computer Optimization Theory	210	Study of computer optimization theory, covering the theoretical foundations of computer optimization. Applications include optimization research and education.	3
245	Computer Cryptography Theory	210	Study of computer cryptography theory, covering the theoretical foundations of computer cryptography. Applications include cryptography research and education.	3
246	Computer Forensics Theory	210	Study of computer forensics theory, covering the theoretical foundations of computer forensics. Applications include forensics research and education.	3
247	Computer Ethics Theory	210	Study of computer ethics theory, covering the theoretical foundations of computer ethics. Applications include ethics research and education.	3
248	Computer History Theory	210	Study of computer history theory, covering the theoretical foundations of computer history. Applications include history research and education.	3
249	Computer Philosophy Theory	210	Study of computer philosophy theory, covering the theoretical foundations of computer philosophy. Applications include philosophy research and education.	3
250	Computer Law Theory	210	Study of computer law theory, covering the theoretical foundations of computer law. Applications include law research and education.	3
251	Computer Economics Theory	210	Study of computer economics theory, covering the theoretical foundations of computer economics. Applications include economics research and education.	3
252	Computer Sociology Theory	210	Study of computer sociology theory, covering the theoretical foundations of computer sociology. Applications include sociology research and education.	3

General Catalogue of Printed Books British Museum. Department of Printed Books,1969 **Black Power in South Africa** Gail M. Gerhart,2023-04-28 This book better than any I have seen provides an understanding of the politics and ideology of orthodox African nationalism or Black Power in South Africa since World War II from the Youth League of the African Student National Congress ANC of the late 1940s to the South African Student Organization SASO and the Black Consciousness Movement of the 1970s Perspective Clarifies some of the main issues that have divided the black leadership and rescues the work of some pioneering nationalist theorists It s an absorbing piece of history New York Times Informative and well researched She ably explores the nuances of the two main movements until 1960 and explains why blacks were so receptive to black consciousness in the late Sixties New York Review This book better than any I have seen provides an understanding of the politics and ideology of orthodox African nationalism or Black Power in South Africa since World War II from the Youth League of the African Student National Congress ANC Subject Index of the Modern Works Added to the British Museum Library ,1965 The Kaiser Index to Black Resources, 1948-1986: T-Z ,1992 **Subject Index of Modern Books Acquired** British Museum. Department of Printed Books,1965 *The Homeschooling Father, How and Why I got started* Salatiso,2023-11-18 A courageously and brilliantly written tell it like it is summation of the challenges endemic in education in Mzansi and elsewhere frankly and the knock on effect that permeates society and employment With its

entrenched culture of entitlement patronage cadre deployment and good old fashioned construction mafia shakedowns the narrative is both gripping and enlightening More refreshing still is the hope offered by the author in the way of solutions and a can do spirit not just another list of only problems This author and writing is one of South Africa s best kept secrets as far as I am concerned Among other things it is inspiring me to seriously contemplate homeschooling my children though it covers so much more ground than that alone Do yourself a favour and read this work Share it widely and often Kudos Salatiso Thanks for the inspiration James Jimmy Duly MSc Adult Ed World s Most Reality based Operations Management at University of KwaZulu Natal

The Top Books of the Year 16 Fort Hare University Study Guide The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. 16 Fort Hare University Study Guide : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. 16 Fort Hare University Study Guide : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Popen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
