1journals Impact Factor:

The Impact Factor of Scientific and Scholarly Journals Tibor Braun, 2007 *Assessment of Social Sustainability Management in Various Sectors* Subramanian Senthilkannan Muthu, 2025-02-28 This volume presents a variety of case studies detailing how imperatives of social sustainability are handled in several industries The first chapter written by the volume editor provides context for social sustainability and explains how the following chapters fit together The following five chapters detail cases from the textile industry technology firms agriculture and the healthcare industry *Proceedings of the 4th International Civil Engineering and Architecture Conference* Marco Casini, 2024-11-19 This book collects the scientific proceedings presented during the 2024 The 4th International Civil Engineering and Architecture Conference held in Seoul South Korea in March 2024 with the aim of showing the latest advancements in theoretical and applied research in the architecture engineering and construction sector AEC The book is organized into four main parts namely 1 sustainable urban planning and architecture 2 architectural and environmental design 3 built environment materials and construction technology and 4 civil engineering and construction management The goal of the book is to provide readers with an overview of the ongoing transformation of the AEC industry presenting a thorough investigation of the emerging trends in the fields of green building design construction and operation

Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis Giorgos Kouroupoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences

The Psychiatry Resident Handbook Sallie G. De Golia, M.D., M.P.H., Raziya Wang, M.D., 2023-03-31 The Psychiatry Resident Handbook delivers a holistic approach for making the most of the training years addressing issues of identity clinical practice skill building career development and balancing work and a personal life

Beyond Power Transitions David C.

Kang,Xinru Ma,2024-10-08 Questions about the likelihood of conflict between the United States and China have dominated international policy discussion for years But the leading theory of power transitions between a declining hegemon and a rising rival is based exclusively on European examples such as the Peloponnesian War as chronicled by Thucydides as well as the rise of Germany under Bismarck and the Anglo German rivalry of the nineteenth and early twentieth centuries What lessons does East Asian history offer for both the power transitions debate and the future of U S China relations Examining the rise and fall of East Asian powers over 1 500 years Beyond Power Transitions offers a new perspective on the forces that shape war and peace Xinru Ma and David C Kang argue that focusing on the East Asian experience underscores domestic risks and constraints on great powers not relative rise and decline in international competition They find that almost every regime transition before the twentieth century was instigated by internal challenges and even the exceptions deviated markedly from the predictions of power transition theory Instead East Asia was stable for a remarkably long time despite massive power differences because of common understandings about countries relative status Provocative and incisive this book challenges prevailing assumptions about the universality of power transition theory and shows why East Asian history has profound implications for international affairs today

Dietary Exposures to Environmental Pollutants: Integrated Multimedia Perspectives Qun Xu,Peng Gao,Yuxia Ma,Gangqiang Ding,2023-11-24 [Bibliometric Analysis for Beginners \(UUM Press\)](#)

Aidi Ahmi,2022-12-18 Bibliometric analysis means measuring the properties of all kinds of documents including journal articles conference proceedings books etc These properties can easily be obtained from academic databases such as Scopus Unlike other qualitative studies the bibliometric study requires minimal effort to get the data before it can be analysed It will take less than five minutes to obtain the dataset if the author understands the concept While this study initially comes from the library and information science field it has now become popular among scholars regardless of their areas of interest This study is suitable for anyone who wants to explore the current state of the art of the literature of any field of study Analysis can easily be conducted using several freely available tools such as Harzing s Publish or Perish and VOSviewer Unlike systematic literature review content analysis or meta analysis studies bibliometric research does not require you to download or even read the full content of the data to be analysed This book is suitable for anyone who wants to write and publish their first paper using bibliometric analysis

Smart Applications and Sustainability in the AIoT Era Fadi Al-Turjman,2024-12-26 This book gathers recent research work on emerging Artificial Intelligence AI methods for processing and storing data generated by smart infrastructures Smart infrastructures gather Terabytes of data nowadays with no need for traditional control The data automatically uploads to the cloud computing platform The cloud analyses the data and generates the required output in visualization graph and action A remote access network can be constructed dependent on either low elevation or high altitude stages When associated with satellite and earthly frameworks these stages empower a far reaching access network with worldwide inclusion and diverse administration provisioning Data analytics are

used in agriculture mining waste management energy and military defenses Major topics covered include the analysis and development of AI powered mechanisms in future IoT and smart infrastructures applications Further the book addresses new technological developments current research trends and industry needs Presenting case studies experience and evaluation reports and best practices in utilizing AI applications in IoT networks it strikes a good balance between theoretical and practical issues It also provides technical scientific information on various aspects of AI technologies ranging from basic concepts to research grade material including future directions The book is intended for researchers practitioners engineers and scientists involved in the design and development of protocols and AI applications for smart and sustainable infrastructure related devices

[Higher Education Unlocked: A Complete Guide for Students, Teachers, and Leaders](#) LALIT MOHAN SHUKLA, 2025-10-07 Higher Education Unlocked A Complete Guide for Students Teachers and Leaders by Lalit Mohan Shukla is a groundbreaking educational resource that bridges the gap between academic knowledge and practical life skills This comprehensive book explores the evolving landscape of higher education equipping readers with insights on modern learning strategies leadership in education and future ready career planning Written by Lalit Mohan Shukla an eminent educationist and author of several bestselling e books this guide empowers students to make informed academic choices teachers to innovate in pedagogy and educational leaders to build institutions of excellence With trending keywords like higher education reform career oriented learning skill development in education future ready students and educational leadership strategies this book ranks among the most insightful resources for lifelong learners It integrates the principles of digital transformation in education global mobility of students and AI driven learning ecosystems offering a visionary outlook for the 21st century Whether you are preparing for competitive exams seeking effective teaching methods or leading an educational institution Higher Education Unlocked provides practical frameworks motivational insights and real world examples that redefine success in academia It combines traditional educational wisdom with modern technological perspectives making it a must read for educators policymakers and aspirants of holistic learning

Why This Book Matters
Unlocks the true purpose of higher education beyond degrees focused on knowledge application and lifelong growth Explores career development employability skills and academic innovation in the era of AI and digital learning Offers a roadmap for educational leadership academic excellence and institutional transformation Addresses students mental well being self motivation and decision making skills for a balanced academic life Bridges industry academia gaps with insights into skill based education and global opportunities

Highlights Authored by Lalit Mohan Shukla an internationally acclaimed writer and educationist Ideal for students teachers academic administrators and policymakers Provides practical tools like a Career Guidance Toolkit and Emerging Fields Directory Encourages educational innovation inclusive learning and sustainable development goals SDGs Integrates research innovation and knowledge economy principles to shape future ready learners Waste Management and Environmental Impact XI J.J. Casares ,M. Lega,E. Rada,2022-08-10 Resulting from a merger of two successful events this book contains papers presented at the 11th International Conference on Waste Management and Environmental and Economic Impact on Sustainable Development To prevent emerging threats to environmental and ecological systems we must learn from past failures to avoid repeating similar mistakes Waste management is one of the key problems of modern society due to the ever expanding volume and complexity of discarded domestic and industrial waste and its implications on health and the environment Society is increasingly aware of the need to establish better practices and safer solutions for waste disposal This creates a need for more research on current disposal methods such as landfills incineration chemical and effluent treatment as well as recycling clean technologies waste monitoring public and corporate awareness and general education The desired direction of waste management is towards sustainable strategies that avoid the short term solutions applied in the past The approach which has emerged as the most promising has been called 4Rs where reduction reuse recycling and recovery are seen as the best actions More recently these concepts have given rise to the new model of the Circular Economy which is based on the reuse of what up to now has been considered waste reintroducing them into the production cycle Further steps are required towards the improvement of current technologies increased collaboration between the public government and private sectors and increased involvement of all stakeholders The included research works put a focus on the impact of economic constraints on the environment taking into account the social aspects as well as the over use of natural resources contamination and toxicity Problems of great importance are addressed with the goal of finding constructive and progressive approaches to ensure sustainability Journal of the American Society for Information Science American Society for Information Science,1996 **Trust in Social Dilemmas** Paul A. M. van Lange,Bettina Rockenbach,Toshio Yamagishi,2017 How do we help people be more cooperative with one another Trust in Social Dilemmas explores fundamental scientific questions about how and why trust may affect human cooperation By showcasing recent research in the field through the lens of some of its leading scholars this book provides an important overview of research on trust as it explores topics such as the functioning of relationships organizations and societies at large **Energy 4.0** Gulshan Sharma,Pitshou N. Bokoro,Sudeep Tanwar,2025-06-02 The text provides insight into renewable technologies and their challenges in terms of design efficiency implementation and solutions to mitigate the problem of energy crisis It will help the readers to understand the role of the fourth industrial revolution technologies in developing user friendly economic and implementable solutions to mitigate the present and future energy crisis through cleaner and renewable technologies Discusses electric energy

transportation systems electricity distribution systems demand response metering smart grids and cyber security Covers electric vehicles vehicle to grid technologies charging while driving technology for future roads and highways and autonomous mobile robots Presents data driven modeling forecasting and optimization techniques of power and energy systems Illustrates energy storage technologies energy efficient systems power conversion topologies and related control techniques Explains the design of control algorithms for solar systems and the design of efficient energy management for solar power The text is primarily written for senior undergraduates graduate students and academic researchers in the fields of electrical engineering electronics and communications engineering energy environmental engineering computer science and engineering *Insights In Biomaterials 2022 / 2023 - Novel Developments, Current Challenges, and Future Perspectives* Hasan Uludag, Yunbing Wang, Nihal Engin Vrana, Candan Tamerler, Chandra Kothapalli, Milana C. Vasudev, 2024-03-04 Evaluating Science and Scientists Mark S. Frankel, Jane Cave, 1997 Reforms in the evaluation and funding of scientific research are a key element in the broader process of economic reform in Eastern Europe This text examines the introduction of competitive funding systems based on peer review surveys Western experience in the design and management of evaluation systems and offers suggestions for dealing with some of the problems encountered by East European reformers This text is aimed at postgraduate and upper level undergraduate courses on science policy the sociology of science and science and society Influencer Marketing Lauren Gurrieri, Jenna Drenten, Crystal Abidin, 2024-12-16 Influencer marketing often gets touted as more authentic democratised credible and relatable than traditional marketing tactics But such hype glosses over its messy sociocultural dynamics and underlying disparities This book discusses and debates the complexities of influencer marketing casting a critical and interdisciplinary lens on its practices consumption and far reaching societal impact Beneath the surface of likes shares and selfies lies critical questions around power imbalances tensions and transformations in a content driven marketplace How have historical economic and technological changes shaped the development and maturation of influencer marketing as a scholarly field and an industry practice Who attains the mantle of an influencer what attributes transcend traditional categorisations how are the complexities of identity portrayed through influencer culture and how do so called nontraditional influencers connect with audiences and disseminate their perspectives in unique ways How do evolving influencer audience relationships foster mutual benefits and potential pitfalls Influencer marketing has evolved from a marketing tactic to a cultural phenomenon It is shaped and is shaped by the currents of culture By bridging theoretical perspectives and crossing disciplinary boundaries the chapters in this volume advance the readers understanding of influencer marketing by bringing to life its complexities embracing its messiness and highlighting future potentialities The chapters in this book were originally published as a special issue of Journal of Marketing Management *The Key To Scientific Paper Writing* Dr. Aniruddha Subhashchandra Rumale, 2025-07-21 The Book on research paper writing giving you the brief and concise information on Scientific Paper

Writing and Presentation Preparation with explanation of the generic structure of different types of academic papers reports theses books with sufficient examples and Several tips and tricks to make the scientific research writing more reader friendly It is filled with Concise information about different writing tools and bibliography management tools with practical usage examples You will get complete information on how to search journals and conferences with SCOPUS WoS SCI UGC CARE and other important indexes A dedicated chapter on plagiarism and how to minimize it in one s own writing will help you carry your research in four increments for preparing atleast four papers free from self and other type of plagiarism

Handbook of Bibliometric Indicators Roberto Todeschini,Alberto Baccini,2016-08-22 At last the first systematic guide to the growing jungle of citation indices and other bibliometric indicators Written with the aim of providing a complete and unbiased overview of all available statistical measures for scientific productivity the core of this reference is an alphabetical dictionary of indices and other algorithms used to evaluate the importance and impact of researchers and their institutions In 150 major articles the authors describe all indices in strictly mathematical terms without passing judgement on their relative merit From widely used measures such as the journal impact factor or the h index to highly specialized indices all indicators currently in use in the sciences and humanities are described and their application explained The introductory section and the appendix contain a wealth of valuable supporting information on data sources tools and techniques for bibliometric and scientometric analysis for individual researchers as well as their funders and publishers World University Rankings and the Future of Higher Education Downing, Kevin,Ganotice, Jr., Fraide A.,2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond
