Ecopiety Sarah McFarland Taylor,2019-11-12 Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary

personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits. No need to make any fundamental structural changes. The trick is simply for the consumer to buy the right things and shop our way to a greener future. It's time for a reality check. *Ecopiety* offers an absorbing examination of the intersections of environmental sensibilities, contemporary expressions of piety and devotion, and American popular culture. Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in *Fifty Shades of Grey* to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in *True Blood*, the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments. Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action.

Lemon-Aid New and Used Cars and Trucks 1990-2015 Phil Edmonston, 2013-11-18. *Lemon Aid New and Used Cars and Trucks 1990-2015* steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car and truck book on the market. Dr. Phil Canada's best known automotive expert for more than 42 years pulls no punches.
