2016 Bece Examination Social Studies Questions

Tonya Huber, James G. O'Meara

2016 Bece Examination Social Studies Questions:

Teacher Education at the Edge Tonya Huber, James G. O'Meara, 2019-12-01 International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030. This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all. The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe asking questions about transforming the vision of Education 2030 into a reality. Published chapters will reflect a variety of formats free of methodological restrictions involving disciplinary as well as interdisciplinary inquiries. We expect the series will be a leading forum for pioneers redefining the global discussion about the people, places and perspectives shaping Education 2030 outcomes. Education 2030 topics of interest include but are not limited to: Improving access to quality early childhood development care and pre-primary education; Ensuring equal access for all women and men to affordable and quality education; Increasing the number of youth and adults who have skills relevant for sustainable living and livelihoods; Ensuring equal access for the vulnerable including persons with disabilities, indigenous peoples and children in vulnerable situations; Achieving levels of literacy and numeracy required to engage in communities and employment; Acquiring the knowledge and skills needed to promote sustainable development including Human right Gender equality Promotion of a culture of peace and non violence Global citizenship education The appreciation of cultural diversity and of culture s contributions to sustainable development Providing safe non violent inclusive and effective learning environments for all Recruiting preparing supporting and retaining quality teachers

Pregnant in the Time of Ebola David A. Schwartz, Julianne Ngoundoung Anoko, Sharon A. Abramowitz, 2019-01-02 This comprehensive account of the deadliest Ebola outbreak in history examines its devastating effects on West Africa s most vulnerable populations: pregnant women and children. Noted experts across disciplines assess health care systems responses to the epidemic in Liberia, Guinea and Sierra Leone emphasizing key areas such as pregnancy prenatal services childbirth neonatal care and survivor health among pregnant and non pregnant women. The 30 chapters hone in on gender based social issues exacerbated during the outbreak from violence against women and girls to barriers to female education. At the same time chapters pinpoint numerous areas for service delivery and policy improvements for more coordinated effective and humane actions during future pandemics. A sampling of the topics: Ebola virus disease perinatal transmission and epidemiology Comprehensive clinical care for children with Ebola virus disease Maternal and reproductive rights Ebola and the law in Liberia Ebola related complications for maternal newborn and child health service delivery and utilization in Guinea The Ebola epidemic halted female genital cutting in Sierra Leone temporarily Maternity care for Ebola at M decins Sans Frontiers centers Stigmatization of pregnant women with and without Ebola Exclusion of women and infants from Ebola treatment trials Role of midwives during the Ebola epidemic Pregnant in the Time of Ebola is a powerful resource for public health specialists anthropologists social scientists physicians epidemiologists nurses midwives and governmental and non

governmental agency staff studying the effects of the epidemic on women and children as a result of the most widespread Ebola outbreak to date

Understanding West Africa's Ebola Epidemic Ibrahim Abdullah, Ismail Rashid, 2017-10-15

From 2013 to 2015 over 11 000 people across West Africa lost their lives to the deadliest outbreak of the Ebola virus in history. Crucially, this epidemic marked the first time the virus was able to spread beyond rural areas to major cities, overturning conventional assumptions about its epidemiology. With backgrounds ranging from development to disease control, the contributors to this volume, some of them based in countries affected by the Ebola epidemic, consider the underlying factors that shaped this unprecedented outbreak. While championing the heroic efforts of local communities and aid workers in halting the spread of the disease, the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved, which hampered the efforts to contain the epidemic. Alarming, they show that little has been learned from these events, with health provision remaining underfunded and poorly equipped to deal with future outbreaks. Such issues, they argue, reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world.

Positive Psychology in Health Management Anni Wang, Fei Fei Huang, Yufang Guo, Fang Lei, Yuting Song, 2023-12-13

Positive psychology aims to understand how people can better their lives and ultimately flourish. Since Martin Seligman spearheaded this movement of looking for the positives in life rather than focusing on the negatives, substantial research has been conducted. This research indicates that positive psychological resources such as resilience, self-efficacy, optimism, hope, and self-esteem can help individuals build their personal capabilities, which are associated with higher levels of physical, psychological, social, and behavioral health. Health management is also a broad topic containing management of all health-related issues, involving policy making, legal regulation, workforce management, healthcare quality, specific disease management, etc. There has been a drastic increase in research on applying positive psychology to health management. The increasing theoretical and empirical studies have revealed that positive psychological theories have positive effects on the patients' physical and mental health, quality of life, and on healthcare workers' job satisfaction, burnout, and quality of work life. Disease management and health workforce management are two major subjects that involve positive psychology that have been widely investigated in the past few years. Therefore, by combining positive psychology and health management, this topic aims to facilitate cutting-edge ideas and research to explore multidisciplinary approaches of positive psychology in disease management and health workforce management. Our specific aim is to explore how the construct of positive psychology mitigates the negative consequences on patients or family with disease burden and healthcare workers under job-related stress. Furthermore, we hope to recognize the distinct adaptive trajectories of these areas on which positive psychological resources may have an effect. Based on these, we want to highlight the efficacy, effectiveness, and implementation of positive psychology-based intervention for patients or healthcare workers to promote resiliency. Through the achievement of these aims, we also hope to develop new theories and instruments which are culturally sensitive and
