Comparative Evaluation of Multilingual Information Access Systems Julio Gonzalo, Martin Braschler, Michael Kluck, 2004-11-16 The fourth campaign of the Cross language Evaluation Forum CLEF for European languages was held from January to August 2003 Participation in this campaign showed a slight rise in the number of participants from the previous year with 42 groups submitting results for one or more of the different tracks compared with 37 in 2002 but a steep rise in the number of experiments attempted A distinctive feature of CLEF 2003 was the number of new tracks and tasks that were offered as pilot experiments The aim was to try out new ideas and to encourage the development of new evaluation methodologies suited to the emerging requirements of both system developers and users with respect to today's digital collections and to encourage work on many European languages rather than just those most widely used CLEF is thus gradually pushing its participants towards the ultimate goal the development of truly multilingual systems capable of processing collections in diverse media The campaign culminated in a two day workshop held in Trondheim Norway 21-22 August immediately following the 7th European Conference on Digital Libraries ECDL 2003 and attended by more than 70 researchers and system developers The objective of the workshop was to bring together the groups that had participated in the CLEF 2003 campaign so that they could report on the results of their experiments

Difficult Questions Have Easy Answers Atina Hseham, 2023-12-06 An inquiry made to obtain any information is known as an interrogation While asking the person tries to get an answer that allows him to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the weights are equal And What happened in Kolkata yesterday from 8 to 9 o'clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn't say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people's knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test

the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations

Responding to Polar Questions across Languages and Contexts Galina B. Bolden, John Heritage, Marja-Leena Sorjonen, 2023-12-15 This book is about one of the most fundamental action sequences found across human societies and socio cultural contexts polar questions and their responses Question answer sequences are among the most basic building blocks for sequences of action in interaction and are ubiquitous among the languages of the world Among different types of questions polar questions are the most common occurring with greater frequency in all studied languages This volume presents a collection of conversation analytic studies into responses to polar questions across ten different typologically diverse languages in a range of action environments and social contexts The studies explore different ways in which speakers can respond to polar questions and the relationships between response design the action implemented by the response and the context in which it occurs Taken together the studies assembled in the volume present a nuanced view of polar responses as a situated social action
