

Student Exploration: Food Chain

Due _____

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

The *Food Chain Gizmo™* shows a **food chain** with hawks, snakes, rabbits, and grass. In this simulation, the hawks eat snakes, the snakes eat rabbits, and the rabbits eat grass.

1. **Producers** are organisms that do not need to eat other organisms to obtain energy.
 - A. Which organism is a producer in this food chain? [**The grass**]
 - B. Where does the producer get its energy? [**The sun**]
2. **Consumers** must eat other organisms for energy. Which organisms are consumers in this food chain? [**The rabbit, snakes, and the hawk.**]

Gizmo Warm-up

The **SIMULATION** pane of the Gizmo shows the current **population**, or number, of each organism in the food chain.

1. What are the current populations of each organism?

Grass: [**27300**] Rabbits: [**2566**] Hawks: [**278**] Snakes: [**42**]

2. Select the **BAR CHART** tab, and click **Play** (▶). What do you notice about each population as time goes by?

[**Some of the species decrease in % of balance**]

If populations don't change very much over time, the ecosystem is in **equilibrium**.

3. Compare the equilibrium populations of the four organisms. Why do you think populations decrease at higher levels of the food chain? [**Because they depend on the lower parts of the food chain to survive.**]

If you cannot access all the Gizmo site, you **MUST** send them a request for help and get your computer configured so it will work. If they are unable to help you, then you **MUST** use a computer in the library or somewhere else to complete your assignment by the due date!

Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language
