become more restless The news feels overwhelming The world feels like a giant hospital where health specialists despite their efforts cannot save many people The fear worry uncertainty and sadness that surround the situation could be a trigger for depression in many individuals One's emotional and mental well being get at a high risk of deteriorating The COVID 19 pandemic lends credence to the fact that unexpected change can happen The 'How' of Self-Care for Teachers Narelle Lemon,2024-08-20 Providing insights ideas strategies and compassion this book offers a new way of looking at self care for educators experiencing exhaustion and stress or who may simply be feeling more tired than they should be Drawing on personal experiences of burnout as well as research in wellbeing literacy self care and positive psychology Narelle Lemon presents a new framework for self care Designed especially for teachers of any discipline or sector the framework is based on five key dimensions self compassion mindful awareness habits time and empowerment Evidence based and easy to follow these dimensions scaffold the tools and strategies offered in the book allowing the reader to create their own toolbox based on what resonates with them most The book is designed to be flexible so the reader is encouraged to follow the recommendations as closely as they wish or to take inspiration for their own ideas acknowledging that tools will change over time and across contexts The practical tools in this book are further supported by reflective prompts as well as opportunities for extension with tips for leaders working groups and the education sector more broadly Written by a teacher for teachers this book gives you not only the tools but also the permission to look after yourself It will show you that self care is an act of self love self compassion and self awareness and that it is relational and you need to care for you in order to care for others

Is your mind actually able to send and receive messages from other people's brains? Explore these secrets now revealed by the author's quest. Enjoy the facts and results of the latest neuroscience as they now unfold. *Revelations of Your Self-Help Book Secrets* begins with explaining the brain's function, the role of quantum physics, and our current incomplete knowledge of the neuroscience of dreaming. This fascinating journey through science and self-help literature explores what we call psychic phenomena. Author Lancaster Adams is a medical doctor, surgeon, scientist, and medical missionary. In the book, he describes his quest to comprehend the underlying science of a disturbing dream: one with a premonition he had just before his father's illness killed him. Across a span of 6,000 miles, the dream communicated hard facts about his father's previously unknown mortal illness. The incident prompted real communication that confirmed his father's impending death, prompting him to ask how this type of premonition is possible. Using light-hearted humor and anecdotes, *Revelations* illuminates how our brains actually work. Perhaps through our shared humanity, we can identify aspects of our lives that will prove we are not alone in an existential nothingness. And perhaps we can also learn the answers our brains hold that the best computers in the world can't answer.
