Literacy and Media Education Research Methods Pierre Fastrez,Normand Landry,2023-11-27 This handbook

interrogates the foundations of media literacy and media education research from a methodological standpoint. It provides a detailed illustrated overview of key methods used in the study of media literacy and media education. Further, it reveals the diversity of this research field and organizes this diversity by using three categories of investigation: media practices, educational initiatives, and prescriptive discourses. The book offers valuable reference points and tools for exploring the range of research methods used to study media literacy and media education and how these methods connect to epistemological stances, theoretical frameworks, and research questions. It serves as a guide for researchers who wish to position themselves, reflect on the methods they use or are considering using, and compare and contrast them against alternative or complementary approaches. After reading this book, readers will be better able to identify and define the objects of study in media literacy and media education research, the preferred ways of conducting investigations, the phenomena, issues, and dimensions that these are likely to bring to light, and the knowledge that they generate. This comprehensive and up-to-date overview of the field of media literacy education research methods will be of great interest to scholars and students of education studies, media studies, media literacy, cognitive science, and communication studies. Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution (CC BY) 4.0 International license.

Blueprint for a Literate Nation: How You Can Help Cinthia Coletti, 2013-10. K-12 literacy rates in the United States are not as high as those in other first world countries. Halting the decline of literacy is a national effort but must start locally. This book, designed for parents, teachers, librarians, and other concerned citizens, offers practical guidance and solutions to the problem of illiteracy in the United States.

Digital Literacy for Teachers Łukasz Tomczyk, Laura Fedeli, 2022-05-26. This book shows the results of research in different countries on how to measure digital competence among future generations of teachers and facing the challenges brought by the convergence of analogue and digital media. This book provides answers to the research questions: How should the key competencies related to media pedagogy be effectively measured and compared? What is the level of digital literacy of pre-service teachers in selected countries? The individual chapters are based on a systematic review of research results from the last two decades to show trends related to changes in measurement and levels of digital competence. This book is valuable for researchers training future generations of teachers in the use of new media as well as to those trying to measure the development of the information society as well as those conducting research in the field of comparative pedagogy, including the transfer of the most effective solutions in the field of media pedagogy.
