by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum
materials that will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are
aligned with the National Science Education Standards This completely new guide follows on the success of Resources for
Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered
curriculum materials and other resources for science teachers The curriculum materials in the new guide are grouped in five
chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and
Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units and science activity
books Each annotation of curriculum material includes a recommended grade level a description of the activities involved
and of what students can be expected to learn a list of accompanying materials a reading level and ordering information The
curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria
developed for the guide The criteria reflect and incorporate goals and principles of the National Science Education Standards
The annotations designate the specific content standards on which these curriculum pieces focus In addition to the
curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle school science
Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching
directories and guides to science trade books and periodicals for teachers and students Another section features institutional
resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for
interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies
