Laura Klein,2016-11-01 It's easier than ever to build a new product. But developing a great product that people actually want to buy and use is another story. Build Better Products is a hands-on step-by-step guide that helps teams incorporate strategy, empathy, design, and analytics into their development process. You'll learn to develop products and features that improve your business's bottom line while dramatically improving customer experience. [Revenge of the Nerds](#) Jeyo

Sargunam,2023-03-24 The world has transformed in the last two decades. There is no denying that there has been a slow, steady, and overtly subtle takeover of every aspect of human experience. The technological force that is powering this transformation is profoundly undemocratic, can be deemed exploitative. Tools like WhatsApp, Facebook, Google, YouTube, etc. are now ubiquitous. These internet-powered tools have unprecedented global scale, and many don't understand the business revenue models of these monitoring, behavior-manipulating tools. Revenge of the Nerds is an attempt to unravel the forces behind this societal transformation. It tells the story of how Nerds used technology to capture the world and control it using technology. The book explains the vulnerabilities we have in our human minds and how BigTech companies exploit these vulnerabilities to reshape reality in the way they deem fit. Most of the fresh cracks we find in society can be attributed to the faulty interface between technology and human interactions. Human Psychology has been weaponized using Technology to polarize us politically, make us more materialistic, and encourage a hedonist lifestyle. Revenge of the Nerds is the simplified story of how we all got Zuckered and how we can still hope to unzuck our lives. **Build Products That People Beg To**

Buy: Real Demand, Not Fake Marketing Tricks Sybex Books,2025-06-22 You don't need to trick people into buying. You just need to build something they already want. Build Products That People Beg To Buy is a game-changing roadmap for creating digital products, courses, and offers based on real, validated demand, not assumptions, trends, or hope. Inside this book, you'll learn how to identify profitable problems your audience is eager to solve, how to position your offer as the no-brainer solution, and how to test your ideas before you build anything. You'll also explore the psychology behind buyer decisions: why people say yes instantly, what makes them hesitate, and how to structure your product so it practically sells itself. Forget the exhausting launch cycle and the anxiety of "Will this flop?" Instead, you'll create offers so useful, clear, and compelling that people chase you for access. You'll also learn how to gather feedback that matters, refine without overbuilding, and build anticipation long before your product even drops. Whether you're launching your first digital product or revamping an old one, this book will help you shift from forced persuasion to natural demand. Because when your offer is aligned with real needs and positioned with clarity, you don't have to pressure people into buying. You simply invite them to say yes to something they already crave. It's time to stop pushing. It's time to build what people beg for.
