taking an introductory statistics course on their economics accounting or business studies degree

About the Author Michael Barrow is a Senior Lecturer in Economics at the University of Sussex He has acted as a consultant for major industrial commercial and government bodies

Quotes An excellent reference book for the undergraduate student filled with examples and applications both practical i e computer based and traditional i e pen and paper problems wide ranging and sensibly ordered The book is clearly written easy to follow yet not in the least patronising This is a particular strength

Christopher Gerry UCL There are thousands of intro stats books on the market but few which are sufficiently orientated towards economics and even fewer that treat topics with as much rigour as Barrow does

Andy Dickerson University of Sheffield I really like the text book I think it provides a very clear and coherent introduction to Statistics and I have used the various editions as the core text for my course for at least 6 years One of its key strengths is the number of real world examples using real economic data along with worked problems showing students how to apply methods

Julie Litchfield University of Sussex The Barrow exercises and online resources offer good scope for directing students to a great source of self study

Robert Watkins Kingston University

The Teaching and Learning of Statistics Dani Ben-Zvi, Katie Makar, 2015-12-24 This book presents the breadth and diversity of empirical and practical work done on statistics education around the world A wide range of methods are used to respond to the research questions that form its base

Case studies of single students or teachers aimed at understanding reasoning processes large scale experimental studies attempting to generalize trends in the teaching and learning of statistics are both employed Various epistemological stances are described and utilized The teaching and learning of statistics is presented in multiple contexts in the book These include designed settings for young children students in formal schooling tertiary level students vocational schools and teacher professional development A diversity is evident also in the choices of what to teach curriculum when to teach learning trajectory how to teach pedagogy how to demonstrate evidence of learning assessment and what challenges teachers and students face when they solve statistical problems reasoning and thinking
