Resources Abstracts ,1980 **Fusion Energy Update** ,1986 Making Sense of the Social World Daniel F.

Chambliss, Russell K. Schutt, 2010 *Making Sense of the Social World* is an engaging and innovative introduction to social research for students who need to understand methodologies and results but who may never conduct the research themselves. It provides a balanced treatment of qualitative and quantitative methods integrating substantive examples and research techniques and is written in a less formal style than many comparable texts with examples drawn from everyday experience, a text that students actually like to read. The text covers all the essential elements of social research methods including validity, causation, experimental and quasi-experimental design, and techniques of analysis. Topics cited as most challenging for students: a student study site with journal articles and online interactive exercises and chapter examples with emphasis on everyday experiences and current newsworthy issues assist students' understanding. This Third Edition now contains: A new chapter with revised material on evaluation research; A new chapter on research ethics; More contemporary web-based research instruction; Updated end-of-chapter exercises including new ethics exercises; Boxed features: When Things Go Wrong in Social Research.
