Alice In Africa:

Alice in Africa Alice Fredlund, 2007 *Neopatrimonialism in Africa and Beyond* Daniel C. Bach, Mamoudou Gazibo, 2013-03-01 Neopatrimonialism a system whereby rulers use state resources for personal benefit and to secure the loyalty of clients in the general population is central to any teaching or conceptualisation of contemporary African politics This book is a theoretical and comparative study of neopatrimonialism in Africa and across world regions Although such practices are widespread in other parts of the world the African neopatrimonial state has also become a global prototype of the anti developmental state This volume calls for a reappraisal of the genesis and interpretations of the concepts of patrimonialism and neopatrimonialism Expert contributors consider recent debates in Africa through the study of democracy clientelism the big man syndrome Kenya the rise of godfatherism Nigeria warlordism Liberia and the neopatrimonial state on a day to day basis Niger They discuss patrimonialism and neopatrimonialism from Latin America to Europe Central Asia and Asia Pacific to weave a comparative analysis of the interplay between public policies and private interest Neopatrimonialism in Africa and Beyond is an important and timely volume that will be of interest to students and scholars of international politics African studies sociology and international development **South African Urban Change Three Decades After Apartheid** Anthony Lemon, Ronnie Donaldson, Gustav Visser, 2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text *Homes Apart* and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally **The Battle of the Sexes in Science Fiction** Justine Larbalestier, 2023-09-05 Runner up for the Hugo Best Related Book Award 2003 *The Battle of the Sexes in Science Fiction* is a lively account of the role of women and feminism in the development of American science fiction during its formative years the mid 20th century Beginning in 1926 with the publication of the first issue of *Amazing Stories* Justine Larbalestier examines science fiction's engagement with questions of femininity masculinity sex and sexuality She traces the debates over the place of women and feminism in science fiction as it emerged in stories letters and articles in science fiction magazines and fanzines The book culminates in the story of James Tiptree Jr and the eponymous Award Tiptree was a successful science fiction writer of the 1970s who was later discovered to be a woman Tiptree's easy acceptance by the male dominated publishing arena of the time proved that there was no necessary difference in the way men and women wrote but that there was a real difference in the

way they were read **Dictionary of African Biography** Emmanuel Kwaku Akyeampong, Professor Henry Louis Gates, Jr., 2012-02-02 From the Pharaohs to Fanon *Dictionary of African Biography* provides a comprehensive overview of the lives of the men and women who shaped Africa's history Unprecedented in scale DAB covers the whole continent from Tunisia to South Africa from Sierra Leone to Somalia It also encompasses the full scope of history from Queen Hatsheput of Egypt 1490 1468 BC and Hannibal the military commander and strategist of Carthage 243 183 BC to Kwame Nkrumah of Ghana 1909 1972 Miriam Makeba and Nelson Mandela of South Africa 1918 *A History of Christianity in Africa* Elizabeth Isichei, 1995-02-22 This unprecedented work is the first one volume study of the history of Christianity in Africa Written by Elizabeth Isichei a leading scholar in this field *A History of Christianity in Africa* examines the origins and development of Christianity in Africa from the early story of Egyptian Christianity to the spectacular growth vitality and diversity of the churches in Africa today Isichei opens with the brilliance of Christianity in Africa in antiquity and shows how Christian Egypt and North Africa produced some of the most influential intellects of the time She then discusses the churches founded in the wake of early contacts with Europe from the late fifteenth century on and the unbroken Christian witness of Coptic Egypt and of Ethiopia Isichei also examines the different types of Christianity in modern Africa and shows how social factors have influenced its development and expression With the explosive growth of Christianity now taking place in Africa and the increasingly recognized significance of African Christianity this much needed book fills the void in scholarly works on that continent's Christian past also foreshadowing Christian Africa's influential future *Africa's World Trade* Margaret C. Lee, 2014-10-09 Are Africa's world markets really contributing to development across the continent for individuals nations and regions This is the key question posed by Margaret Lee in this provocative book in which she argues that all too often the voices of African traders are obscured amid a blizzard of statistical analysis However it is these very voices from those operating on the ground as formal or informal traders that must be listened to in order to form a true understanding of the impact trade regimes have on these individuals and their communities Featuring a wealth of oral histories from across sub Saharan Africa and beyond including Africans in China *Africa's World Trade* offers a unique insight into how the complexity of international trade agreements can shape the everyday lives of ordinary Africans **The African Diaspora** Isidore Okpewho, Carole Boyce Davies, Ali Al'Amin Mazrui, 1999 How black people established their identities in the African diaspora **African Diasporas in the New and Old Worlds**, 2021-11-01 In the humanities the term diaspora recently emerged as a promising and powerful heuristic concept It challenged traditional ways of thinking and invited reconsiderations of theoretical assumptions about the unfolding of cross cultural and multi ethnic societies about power relations frontiers and boundaries about cultural transmission communication and translation The present collection of essays by renowned writers and scholars addresses these issues and helps to ground the ongoing debate about the African diaspora in a more solid theoretical framework Part I is dedicated to a general discussion of the concept of African diaspora its origins and historical

development Part II examines the complex cultural dimensions of African diasporas in relation to significant sites and figures including the modes and modalities of creative expression from the perspective of both artists writers and their audiences finally Part III focusses on the resources collections and archives and iconographies that are available today As most authors argue the African diaspora should not be seen merely as a historical phenomenon but also as an idea or ideology and an object of representation By exploring this new ground the essays assembled here provide important new insights for scholars in American and African American Studies Cultural Studies Ethnic Studies and African Studies The collection is rounded off by an annotated listing of black autobiographies

Regionalism in Africa Daniel C Bach,2015-12-22 Africa which was not long ago discarded as a hopeless and irrelevant region has become a new frontier for global trade investment and the conduct of international relations This book surveys the socio economic intellectual and security related dimensions of African regionalisms since the turn of the 20th century It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa s own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance

The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser,Ronnie Donaldson,Cecil Seethal,2016-09-20

Transformation of Archives and Heritage Education in Post-apartheid South Africa Geraldine Frieslaar,Olusegun Morakinyo,2023-06-10 Although there have been significant strides to transform the demographics of archive and museum personnel develop new museums and heritage institutions and heritage training initiatives in post apartheid South Africa the Eurocentric model of the archive museum and heritage sector has largely remained intact Despite the euphoria around the transformation of heritage in the beginnings of post apartheid South Africa it can be argued that the transformation of heritage institutions has been superficial and cosmetic with the ideological foundation of the colonial archive and museum as well as Eurocentric modalities of heritage education remaining solid largely unmoved and under continuing challenge This is the thrust of this book which reflects on the transformation of archives and museum and heritage education in South Africa and argues for meaningful transformation of the sector through a decolonisation from its Eurocentric mooring

Pan-Africanism and Psychology in Decolonial Times Shose Kessi,Floretta Boonzaier,Babette Stephanie Gekeler,2022-01-01 This book explores the potential of Pan African thought in contributing to advancing psychological research theory and practice Euro American mainstream psychology has

historically served the interests of a dominant western paradigm Contemporary trends in psychological work have emerged as a direct result of the impact of violent histories of slavery genocide and colonisation Hence this book proposes that psychology particularly in its social forms as a discipline centered on the relationship between mind and society is well placed to produce the critical knowledge and tools for imagining and promoting a just and equitable world

South African Gothic Rebecca Duncan, 2018-06-15 The term Gothic has rarely been brought to bear on contemporary South African fictions appearing too fanciful for the often overtly political writing of apartheid and post apartheid South Africa As the first book length exploration of Gothic impulses in South African literature this volume accounts for the Gothic currents that run through South African imaginaries from the late nineteenth century onwards South African Gothic identifies an intensification in Gothic production that begins with the nascent decline of the apartheid state and relates this to real anxieties that arise with the unfolding of social and political change In the context of a South Africa unmaking and reshaping itself Gothic emerges as a language for long suppressed histories of violence and for ongoing experiences at odds with utopian images of the new democracy Its function is interrogative and ultimately creative South African Gothic challenges narrow conceptions of the status quo to drive at alternative less exclusionary visions

Livelihoods and Landscapes Paulus Gerardus Maria Hebinck, Peter C. Lent, 2007 Focussing on the past history and present day life of the people in two villages in the central Eastern Cape South Africa the book provides a vivid but detailed and insightful account of the transformation of rural society and economy since colonisation

Engineering Design and Mathematical Modelling Nnamdi Nwulu, Mammo Muchie, 2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development

A History of Africa John Fage, with William Tordoff, 2013-10-23 A History of Africa is a thorough narrative history of the continent from its beginnings to the twenty first century Long established at the forefront of

African Studies this book addresses the events of the 1990s and beyond The issues discussed include post apartheid South Africa the prospects for democratization in Africa at the beginning of the new millennium developments in Muslim North Africa including the threat of Islamic fundamentalism economic and social developments including the devastating impact of Third World debt and the provision of debt relief cultural environmental and gender issues in Modern Africa Women in the History of Linguistics Wendy Ayres-Bennett, Helena Sanson, 2020 This volume offers a ground breaking investigation into women s contribution to the description analysis and codification of languages across a wide range of linguistic and cultural traditions The chapters explore a variety of spheres of activity from the production of dictionaries and grammars to language teaching methods and language policy **Becoming African Americans** Clare Corbould, 2009-07-31 It was in the tumultuous period between the two world wars that black Americans first began to embrace a modern African American identity Throwing off the legacy of slavery and segregation black intellectuals activists and organizations sought a prouder past in ancient Egypt and forged links to contemporary Africa
