Globalisation and African Languages Katrin Bromber, Birgit Smieja, 2011-07-20 Globalisation and African Languages links African language studies to the concept of globalisation which increasingly undergoes critical review Hence African linguists of various provenience can make valuable contributions to this debate In cultural matters which by

definition include language there is often a sense that globalisation leads to a major trend of homogenisation which results in a reduction of diversity on the one hand and on the other in new themes being incorporated into global cultural patterns. However, often conflicting and overlapping particularistic interests exist which have a constructive as well as destructive potential. This aspect leads directly to the first of three sections of this volume: LANGUAGE USE AND ATTITUDES which addresses some of the burning issues in sociolinguistic research. Since this research area is tightly linked to the educational domain, these important issues are addressed in articles that comprise the second section of this volume: LANGUAGE POLICY AND EDUCATION. The third section of the volume presents articles dealing with LANGUAGE DESCRIPTION AND CLASSIFICATION demonstrating which parts of different language systems are affected through contact under historical and modern conditions. The contributions of all the well-known scholars in this volume show that globalisation is a two-way street and to ensure that all sides benefit in a reciprocal manner means the impacts have to be monitored globally, regionally, nationally and locally. By disseminating and emphasising these linguistic findings as part of the global cultural heritage, African language studies may offer urgently needed new perspectives towards a rapidly changing world.

More Than Brothers Hein Willemse, 2000. Peter Clarke and James Matthews were born within days of each other: Clarke on 2 June 1929 in a stone cottage overlooking False Bay; Matthews eight days earlier across Table Mountain in a Bo Kaap tenement building facing the city bowl. These two boys from similar backgrounds grew into young men before they met and formed a friendship that would last a lifetime. They became almost more than brothers. Yet they are complete opposites: Clarke is characterized by his dignified reserve and meticulous order; Matthews by his forthrightness and bohemian disorder. Over a period of more than forty years, both became well-known in their respective disciplines: Clarke became a poet, short story writer and primarily a painter; Matthews started out writing short stories and novels before establishing himself as the dispatcher of raging Black Consciousness poetry. This book is a tribute to two fiercely independent artists. It is liberally illustrated with the work of both artists in b/w and color photographs. *African Books in Print*, 1993.

First published in 1953 and this edition in 1991, this book was created in association with the International African Institute. Since its first publication, anthropology and African Studies have changed a great deal, but the bedrock of both remains unchanged: solid, sensitive.

ethnographic and historical accounts of the peoples and cultures of the continent Part One is by Isaac Schapera whose documentation of life and times in the Bechuanaland Protectorate stands as a starkly detailed chronicle of an African population in a rapidly changing world Schapera was one of the few anthropologists who spoke frankly of the rural predicament of rural Africans under colonialism Far from describing the Tswana as a closed or timeless society he locates the people in their political and economic context and in so doing has left behind an extraordinary record This edition of *The Tswana* consists of the original text to which has been added a second part by John L Comaroff which covers the transformation of Tswana life in Botswana and South Africa 1953-85 plus a much enlarged bibliography Together the parts of the book make a valuable summary of an exceedingly rich and ethnographic and historical record that will continue to serve as an indispensable tool in research and teaching
