The book is the culmination of four years of poring over scientific studies, books, and thoughts from top creators, as well as his own experience, to write a book every musician should listen to about what goes into making great music versus what bands do when they make the innumerable bad songs we hear each day. Covering the pitfalls of creating music, the book thoroughly explores the hidden reasons we actually like music, how to get along with our collaborators, and patterns that help creativity flourish. While every musician says that being creative is the most important part of their life, they barely explore what's holding them back from making music they are happy with.
