

These data demonstrate a clear relationship between the number of children in the household and the number of children in the neighborhood. The data also show that the number of children in the neighborhood is a significant predictor of the number of children in the household. This suggests that the number of children in the neighborhood is an important factor in determining the number of children in the household.

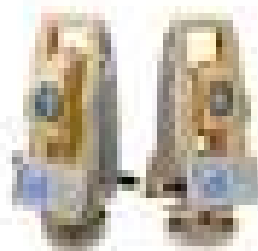

and a comprehensive understanding of the factors that influence the effectiveness of the intervention. The authors also discuss the importance of ongoing evaluation and monitoring of the intervention's impact on the community's health and well-being.
