China's Revolutions in the Modern World Rebecca E. Karl, 2020-01-28 A concise account of how revolutions made modern China and helped shape the modern world. China's emergence as a twenty-first century global economic, cultural, and political power is often presented as a story of what Chinese leader Xi Jinping calls the nation's great rejuvenation, a story narrated as the return of China to its rightful place at the center of the world. In *China's Revolutions in the Modern World*, historian Rebecca E. Karl argues that China's contemporary emergence is best seen not as a return but rather as the product of revolutionary and counter-revolutionary activity and imaginings. From the Taipings in the mid-nineteenth century through nationalist, anti-imperialist, cultural, and socialist revolutions to today's capitalist-inflected Communist State, modern China has been made in intellectual dissonance and class struggle in mass democratic movements and global war in socialism and anti-socialism in repression and conflict by multiple generations of Chinese people mobilized to seize history and make the future in their own name. Through China's successive revolutions, the contours of our contemporary world have taken shape. This brief interpretive history shows how **Occasional Papers**, 1984 **Indian foreign policy and the border dispute with China** Willem Frederik Eekelen, 2012-12-06 The idea for a study of Indian foreign policy originated during a diplomatic posting to New Delhi between 1957 and 1960. These years were marked by the eruption of the Tibetan revolt, the arrival of the Dalai Lama, and the first incidents along the Sino-Indian border. My departure coincided precisely with the landing of the aircraft carrying Premier Chou En-lai to the meeting with the Indian Prime Minister which would terminate the preliminary phase of the boundary dispute. The conflict subsequently assumed proportions affecting the entire position of India. It provided the most severe testing ground for the peaceful coexistence which India espoused, the Five Principles advocated as a new Asian contribution to international relations. The object of this book is to trace the five principles from their optimistic start in an atmosphere of friendship with China to their decline as an instrument of practical politics. As

Panehsheel experienced both its rise and fall in the bilateral context of Sino Indian relations these will be examined in considerable detail Most emphasis is put on the border dispute which represented the first conflict between a communist power and a non aligned state The analysis of legal aspects and political motives in the dispute is preceded by a lengthy chronological description which seemed necessary not only to complete the accounts given in other publications but also as an illustration of both its climatic development and the gradual increase of Chinese pressure *Dilemmas of Victory* Jeremy Brown, Paul G.
