Approaches to World Literature Joachim Küpper, 2013-12-20 The present volume introduces new considerations on the topic of World Literature penned by leading representatives of the discipline from the United States India Japan the Middle East England France and Germany The essays revolve around the question of what specifically in today's rapidly globalizing world may be the productive implications of the concept of World Literature which was first developed in the 18th century and then elaborated on by Goethe The discussions include problems such as different script systems with varying literary functions as well as questions addressing the relationship between ethnic self description and cultural belonging The contributions result from a conference that took place at the Dahlem Humanities Center Freie Universität Berlin in 2012

Yesterday's Tomorrows Pere Gallardo, Elizabeth Russell, 2014-03-26 2012 was a year of financial crises and ecological disasters of endings and forebodings The world did not end on December 21st as the Mayan calendar predicted but became the stage for new beginnings utopian communities protest groups and solidarity movements The essays in this book form an intertextual space for negotiating meaningful facts and fictions with an aim to understanding the present Discussions focus

on utopia and dystopia from literature and film not only within the framework of science fiction but also critical theory gender politics and social sciences The authors of these essays are international academics whose interest lies in utopian studies and who attended the 13th International Conference of Utopian Studies The Shape of Things to Come held in Tarragona Spain in 2012

condition of our being in the natural world This book exposes the processes by which silence can transfigure our lives what Maggie Ross calls the work of silence it describes how lives steeped in silence can transfigure other lives unawares It shows how the work of silence was once understood to be the foundation of the teaching of Jesus and how this teaching was once an intrinsic part of Western Christianity it describes some of the methods by which the institution suppressed the work of silence and why religious institutions are afraid of silence Above all this book shows that the work of silence gives us a way of being in the world that is more than we can ask for or imagine
