The Language-Rich Classroom Pérsida Himmele, William Himmele, 2009-07-15 Today's multilingual classrooms challenge even the best teachers' skills. As teachers strive to help all students reach their full potential, the needs of English language learners (ELLs) can seem overwhelming. In *The Language Rich Classroom*, educators and consultants Pérsida and William Himmele present a five-part research-based framework (CHATS) that teachers can use to help ELLs as well as other students attain greater language skills and deeper content comprehension. This field-tested framework includes diagnostic tools, comprehensive overviews on second language acquisition and teaching techniques to boost language learning in any classroom. The CHATS framework provides teachers with C (content), R (reading), S (higher-order thinking skills), A (assessment tools), T (total participation techniques), and S (scaffolding strategies). The book also contains helpful planning worksheets, assessment logs, and scaffolding tools. Teachers will also find more than 25 classroom and team-building activities and specific tips about how these activities benefit ELLs. *The Language Rich Classroom* is an invaluable resource that will help teachers foster greater gains in students' language development, increase their comprehension across all subject areas, and build classrooms that are engaging and welcoming to students of all cultures.

Early Biliteracy Development Eurydice B. Bauer, Mileidis Gort, 2012-05-22 A large and growing number of students from culturally and linguistically diverse backgrounds in the US and around the world have the potential to develop bilingualism and biliteracy if supported in their immediate environment. At the forefront in focusing exclusively on biliteracy development in early childhood across a variety of languages, this book provides both findings from empirical research with young bilinguals in home and school contexts and practical applications of these findings. Each chapter is structured in a similar format to offer parallel descriptions of the research, including a brief review of related empirical studies, an overview of the methods for data collection and analysis, a description of the main findings, and specific pedagogical implications to support educators' efforts to construct meaningful, challenging, and dynamic literacy and language learning communities where one or more languages are used for communicating and learning. Pushing the field forward, this book is a valuable resource for helping literacy educators understand and respond to critical issues related to the development of young children's literate competencies in two languages in home and school contexts.

The Best for Our Children Maria de la Luz Reyes, John J. Halcon, 2001 This watershed volume brings together the foremost leading authorities and scholars, lending their individual voices to a single, urgent issue: literacy for Latino students. In a departure from traditional paradigms, Latinos examine their own lived experiences in U.S. schools and offer sound theories born from positions of expertise and first-hand knowledge as researchers and educators. Their discussions and critical perspectives on literacy for Latino students in grades K-12 touch on the important topics of encouraging biliteracy in the classroom, constructing theories of possibility, promoting critically literate youth, organizing teaching and learning to students' potential, linking literacy to lived experiences, and, as insiders in Spanish

speaking communities that are often maligned for their children's alleged failure in schools these authors offer hope for children's academic potential as well as evidence showing that integration of native language and culture in supportive learning environments can lead to success in literacy in two languages Contributors Alma Flor Ada Hector H Alvarez Mar a V Balderrama Patricia Baquedano Lopez Lilia I Bartolom Mar a Echiburu Berzins Esteban Diaz Berbara Flores Mar a E Frnquiz Kris D Guti rrez Bobbi Ciriza Houtchens Robert T Jim nez Eloise Andrade Laliberty Alice E Lopez Roberta Maldonado Carmen I Mercado Luis C Moll Rosa Zubizarreta In this illuminating volume the authors courageously challenge the assumption of a skill based English only literacy for Latinos By shifting the literacy debate to a sociocultural terrain they urge readers to confront the prevailing issues of racism classism gender and economic deprivation that characterize the literacy of Latino Latina students in the U S public schools Simply put this volume provides readers with the necessary political clarity to understand and appreciate what it means to be literate in the changing multilingual and multicultural world of the 21st century Donaldo Macedo Distinguished Professor of Liberal Arts and Education University of Massachusetts Boston

Bilingual Education in South America Anne-Marie De Mejía, 2005 This book presents a vision of bilingual education in six South American nations three Andean countries Peru Ecuador and Colombia and three Southern Cone countries Brazil Argentina and Paraguay It provides an integrated perspective including work carried out in majority as well as minority language contexts referring to developments in the fields of indigenous Deaf and international bilingual and multilingual provision *Becoming Biliterate* Bertha Perez, 2003-10-03 This book describes the development process and dynamics of change in the course of implementing a two way bilingual immersion education program in two school communities The focus is on the language and literacy learning of elementary school students and on how it is influenced by parents teachers and policymakers Perez provides rich highly detailed descriptions both quantitative and qualitative of the change process at the two schools involved including student language and achievement data for five years of program implementation that were used to test the basic two way bilingual theory the specific school interventions and the particular classroom instructional practices The contribution of *Becoming Biliterate* A Study of Two Way Bilingual Immersion Education is to provide a comprehensive description of contextual and instructional factors that might help or hinder the attainment of successful literacy and student outcomes in both languages The study has broad theoretical policy and practical instructional relevance for the many other U S school districts with large student populations of non native speakers of English This volume is highly relevant for researchers teacher educators and graduate students in bilingual and ESL education language policy linguistics and language education and as a text for master's and doctoral level classes in these areas *Bilingual Competence and Bilingual Proficiency in Child Development* Norbert Francis, 2011-11-18 A study of first and second language development in an indigenous community with implications for broader linguistic and cognitive issues When two or more languages are part of a child's world we are presented with a rich opportunity to learn something about language in general

and about how the mind works In this book Norbert Francis examines the development of bilingual proficiency and the different kinds of competence that come together in making up its component parts In particular he explores problems of language ability when children use two languages for tasks related to schooling especially in learning how to read and write He considers both broader research issues and findings from an ongoing investigation of child bilingualism in an indigenous language speaking community in Mexico This special sociolinguistic context allows for a unique perspective on some of the central themes of bilingualism research today including the distinction between competence and proficiency modularity and the Poverty of Stimulus problem Francis proposes that competence knowledge should be considered as an integral component of proficiency ability rather than something separate and apart arguing that this approach allows for a more inclusive assessment of research findings from diverse fields of study The bilingual indigenous language project illustrates how the concepts of modularity and the competence proficiency distinction in particular might be applied to problems of language learning and literacy Few investigations of indigenous language and culture approach bilingual research problems from a cognitive science perspective By suggesting connections to broader cognitive and linguistic issues Francis points the way to further research along these lines *Understanding Language and Literacy Development* Xiao-lei Wang, 2014-10-20
