Popular Science ,1921-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Scientific American** ,1899 **Bureau Publication ...** ,1931 **Proceedings** Indiana Academy of Science,1894 **Harper's Book of Facts** Charlton Thomas Lewis,Joseph H. Willsey,1895 **Memoirs of the College of Science and Engineering, Waseda University** Waseda University, Tokyo. Rikōgakubu,1987 **Light** ,1893 **The Medical Times and Gazette** ,1879 *Decolonization of e-Government Research and Practice* Kelvin J. Bwalya,2018-12-01 With the rapid increase in the implementation of e Government in Africa and across the world the need to investigate the key bottlenecks issues caused by the failure of a large number of e Government projects cannot be ignored The main purpose of this book is to contribute to the current scholarly and intellectual discourse on different aspects of e Government such as understanding the critical issues in design implementation and monitoring This book specifically intends to bring out contextual issues that hugely impact on the probability for e Government failure or success It also differentiates itself by carefully exploring the issue of context awareness informed by the local context for e Government design and implementation which has not been pursued in any publication in e Government before although it has been used in other information computational contexts Therefore the many theses within this book are concerned with e Government design approaches implementation policies and requirements and monitoring dimensions need to be informed by the contextual characteristics in which they are implemented This book contributes to the body of knowledge by presenting an in depth analysis of a case of e Government implementation Therefore this book has its facts backed by intermittent reference to an empirical study done in Zambia to accentuate issues in design adoption usage and monitoring of e Government projects The case articulates the methodological issues in the design and measurement of e Government The use of a combination of structural equation modelling SEM exploratory factor analysis EFA and advanced techniques such as principal component analysis PCA in investigating different aspects of e Government in a developing country context has not been done in any previous research The novel methodological nuances articulated in this book can go a long way toward understanding the factors explaining successful implementation of e Government Previous publications have used basic statistical approaches devoid of adequate scientific or statistical rigour such as descriptive statistics to arrive at factors influencing the success or failure of e Government Furthermore this book contributes to the body of knowledge by emphasising the different dimensions and issues of the multidimensional perspectives of e Government The book explores tangible pointers for design and implementation of e Government giving it the thrust to potentially guide actual implementation of e Government in African setups **Modular Forms and Fermat's Last Theorem** Gary Cornell,Joseph H. Silverman,Glenn Stevens,2013-12-01 This volume contains expanded versions of

lectures given at an instructional conference on number theory and arithmetic geometry held August 9 through 18 1995 at Boston University Contributor s include The purpose of the conference and of this book is to introduce and explain the many ideas and techniques used by Wiles in his proof that every semi stable elliptic curve over $\mathbb{Q}$ is modular and to explain how Wiles result can be combined with Ribet s theorem and ideas of Frey and Serre to show at long last that Fermat s Last Theorem is true The book begins with an overview of the complete proof followed by several introductory chapters surveying the basic theory of elliptic curves modular functions modular curves Galois cohomology and finite group schemes Representation theory which lies at the core of Wiles proof is dealt with in a chapter on automorphic representations and the Langlands Tunnell theorem and this is followed by in depth discussions of Serre s conjectures Galois deformations universal deformation rings Hecke algebras complete intersections and more as the reader is led step by step through Wiles proof In recognition of the historical significance of Fermat s Last Theorem the volume concludes by looking both forward and backward in time reflecting on the history of the problem while placing Wiles theorem into a more general Diophantine context suggesting future applications Students and professional mathematicians alike will find this volume to be an indispensable resource for mastering the epoch making proof of Fermat s Last Theorem
