Airline Operations and Management Gerald N. Cook, Bruce G. Billig, 2023-05-04 Airline Operations and Management A Management Textbook presents a survey of the airline industry with a strong managerial perspective It integrates and applies the fundamentals of several management disciplines particularly operations marketing economics and finance to develop a comprehensive overview It also provides readers with a solid historical background and offers a global perspective of the industry with examples drawn from airlines around the world Updates for the second edition include Fresh data and examples A range of international case studies exploring real life applications New or increased coverage of key topics such as the COVID 19 pandemic state aid and new business models New chapters on fleet management and labor relations and HRM Lecture slides for instructors This textbook is for advanced undergraduate and graduate students of airline management but it should also be useful to entry and junior level airline managers and professionals seeking to expand their knowledge of the industry beyond their functional area

The Report: Qatar 2015 Oxford Business Group, 2015-04-22 Qatar's sizable oil and natural gas reserves have underpinned its rapid economic growth over the past two decades Home to the world's largest non associated gas field the country is the world's fourth largest producer of dry natural gas and the largest producer of liquefied natural gas with hydrocarbons revenues forming the bulk of national income as a result Although the drop in global energy prices has impacted export revenues rigorous economic diversification drives in recent years have paid dividends and in 2015 non hydrocarbons growth reached 7.7% compared to a 0.1% contraction for hydrocarbons growth during the same period The country's financial sector has continued to evolve Islamic banking in particular has witnessed significant progress Meanwhile as the country gears up to host several important sporting events in the coming years most notably the 2022 FIFA World Cup numerous big ticket infrastructure builds continue to expand the construction sector

Evolution of International Aviation Dawna L. Rhoades, 2016-04-15 The purpose of this book is twofold First it lays out the forces that shaped the international aviation industry and that changed all the rules in the drive for liberalization Second it looks at the many interesting and difficult choices ahead that the airline industry in general and the international aviation industry in particular face These choices include many dichotomies pulling back from the trend toward liberalization or embracing the liberalization trend merging in search of profitability or fragmenting the industry in search of economies These possible futures are explored including the pros and cons of each future from a national consumer employer and employee perspective As with the previous two editions Evolution of International Aviation reviews the historical development of the international aviation system From this foundation it then provides an updated and expanded account of the current state of the aviation and aerospace industry including profitability consolidation and merger activity New to this edition the book broadens the coverage of the industry segments airlines air cargo and manufacturing to include the emerging commercial space sector It also emphasizes the relationship between aviation and the political process exploring

the sustainability of this mode of transportation in a world of climate change high oil prices and political instability Because this book is intended for both the interested amateur and the more serious student references are provided in the text and at the end of each chapter to allow for further in depth study The third edition also adds to each chapter a set of learning objectives and a concluding series of questions for discussion

The Transformative City Wilbur C. Rich,2020-03-01 Sunbelt cities like Atlanta Charlotte and Miami with their international airports have a transportation advantage that overwhelms global competition from other southern cities Why The short answer to this question seems to be intuitive but the long answer lies at the intersection of built infrastructure policies civic boosterism and the changing nature of American cities Simply put Charlotte leaders invested in the future and took advantage of its opportunities In the twentieth century Charlotte North Carolina underwent several generational changes in leadership and saw the emergence of a pro growth coalition active in matters of the city s ambience race relations business decisions and use of state and federal government grants in aid In The Transformative City Wilbur C Rich examines the complex interrelationships of these factors to illustrate the uniqueness of North Carolina s most populous city and explores the ways in which the development and success of Charlotte Douglas International Airport has in turn led to development in the city itself including the growth of both the financial industries and political sectors Rich also examines the role the federal government had in airport development banking and race relation reforms The Transformative City traces the economic transformation of Charlotte as a city and its airport as an agent of change

Ebook: Advertising and Promotion Belch,2014-09-16 Ebook Advertising and Promotion The Future of Inflight Entertainment in Europe, According to Passenger Expectations: Why Airlines Should Embrace Consumer Technology Jasmin Schawald,2014-04-15 Consumerization passengers toting their tablets laptops smartphones and e readers on planes has

forced airlines to re think Should they continue to invest heavily into Inflight Entertainment IFE systems or just concentrate on offering Wi Fi and power in the cabin The goal of this research was to define the IFE offer of the future Four barriers that split the world into the three regions Europe Asia and USA in terms of IFE development were identified the cultural the commercial the technological and the legal barrier This book focuses on Europe which lags mostly behind with IFE out of these three regions For example as opposed to the US no major European airline offers inflight Wi Fi widely on its network and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction like on the ground The target was to define IFE from a consumer perspective To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach which categorizes alternatives of a product or service in this case IFE in must be attractive and indifferent elements A representative online survey revealed movies and power to be must be TV and Wi Fi to be attractive and the rest e books music games and duty free onboard to be indifferent elements of IFE The majority of people indicated that they would pay for movies and Wi Fi but not for power supply TV or other content Differently said content wise passengers only insisted in the supply of movies for the rest they expected the airline to provide Internet and power so they themselves could get the content Further sub groups were analysed people within the sample with mutual characteristics like gender travel frequency or ownership of smart devices So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others Overall country of residence travel purp Flight International ,2013 **Airline Industry Consolidation** United States.
