They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion-dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, first insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new edition is the first to also be available in a digital format. **Everyday Reading** Mike Chasar, 2012
Exploring poetry scrapbooks, old-time radio show recordings, advertising verse, corporate archives, and Hallmark greeting cards among other unconventional sources, Mike Chasar casts American poetry as an everyday phenomenon consumed and created by a vast range of readers. He shows how American poetry in the first half of the twentieth century and its reception helped set the stage for the dynamics of popular culture and mass media today. Poetry was then part and parcel of American popular culture, spreading rapidly as the consumer economy expanded and companies exploited its profit-making potential. Poetry also offered ordinary Americans creative, emotional, political, and intellectual modes of expression, whether through scrapbooking, participation in radio programs, or poetry contests. Reenvisioning the uses of twentieth-century poetry, Chasar provides a richer understanding of the innovations of modernist and avant-garde poets and the American reading public's sophisticated powers of feeling and perception.
