Amazon Casino Royale Book Synopsis:

Film as World Literature Robin Truth Goodman, 2025-10-16 Redefines the theoretical and thematic contents of world literature by considering it in connection with film What gets lost when we understand film as essentially different from literature What gets lost when we think them essentially the same Does the constructed difference between literature and film also create social and political exclusions exclusions that may exacerbate class struggle or exclusions of certain ways of thinking the future as different Film as World Literature seeks to undo disciplines and disciplinarity the division between film and literature indeed conceals the possibilities of world by bracketing out undisciplined parts Contributors apply ideas of translatability and untranslatability not just as a linguistic exercise of transfers between language groups cultures and national origins but also as an approach to media and transfers between media Is film a visual acknowledgement that literary language is by definition multilingual that is is film a place where political conflicts as Bakhtin observed can be rendered visible Chapters discuss film s relation to world literature not only by considering literary adaptations across nations regions languages ideologies and contexts but also by exploring film s intersections with literary theory narrative history genre and experimentation Film as World Literature calls for recognition that while the category of world demands a radical defense in the face of risks to democracy the world that literature and film combined bring forth must interrogate the conditions for a future politics of interaction engagement belonging and difference Sociological Abstracts Leo P. Chall, 1998

Recommender Systems and the Social Web Fatih Gedikli, 2013-03-29 There is an increasing demand for recommender systems due to the information overload users are facing on the Web The goal of a recommender system is to provide personalized recommendations of products or services to users With the advent of the Social Web user generated content has enriched the social dimension of the Web As user provided content data also tells us something about the user one can learn the user s individual preferences from the Social Web This opens up completely new opportunities and challenges for recommender systems research Fatih Gedikli deals with the question of how user provided tagging data can be used to build better recommender systems A tag recommender algorithm is proposed which recommends tags for users to annotate their favorite online resources The author also proposes algorithms which exploit the user provided tagging data and produce more accurate recommendations On the basis of this idea he shows how tags can be used to explain to the user the automatically generated recommendations in a clear and intuitively understandable form With his book Fatih Gedikli gives us an outlook on the next generation of recommendation systems in the Social Web sphere **E-Commerce and Web**
