Schier, Todd E. Eberly, 2013-07-18 Popular distrust and the entrenchment of government by professionals lie at the root of America's most pressing political problems How did U S politics get to this point Contemporary American politics got much of its shape from the transformations brought about from the 1950s to the 1980s Presidential and congressional behavior voting behavior public opinion public policy and federalism were all reconfigured during that time and many of those changes persist to this day and structure the political environment in the early twenty first century Throughout American history parties have been a reliable instrument for translating majority preferences into public policy From the 1950s to the 1980s a gradual antiparty realignment alongside the growth of professional government produced a new American political system of remarkable durability and remarkable dysfunction It is a system that is paradoxically stable despite witnessing frequent shifts in party control of the institutions of government at the state and national level Schier and Eberly's system level view of American politics demonstrates the disconnect between an increasingly polarized and partisan elite and an increasingly disaffected mass public **System Under Stress: Homeland Security and American Politics** Donald F. Kettl, 2013-03-12 In System under Stress The Challenge to 21st Century Democracy Third Edition Donald F Kettl looks at the latest stress to hit the system the financial crisis of 2008 In his brief gripping narrative Kettl assesses how well the U S political system responds under extraordinary pressure from 9 11 to Hurricane Katrina to the Great Recession and asks if the government is ready to face that next challenge A well known scholar commentator and writer in the areas of federalism and governance Kettl asks
