Benjamin Lazier, 2012-06-24 Could the best thing about religion be the heresies it spawns Leading intellectuals in interwar Europe thought so They believed that they lived in a world made derelict by God's absence and the interruption of his call In response they helped resurrect gnosticism and pantheism the two most potent challenges to the monotheistic tradition In God Interrupted Benjamin Lazier tracks the ensuing debates about the divine across confessions and disciplines He also traces the surprising afterlives of these debates in postwar arguments about the environment neoconservative politics and

heretical forms of Jewish identity In lively elegant prose the book reorients the intellectual history of the era God Interrupted also provides novel accounts of three German Jewish thinkers whose ideas seminal to fields typically regarded as wildly unrelated had common origins in debates about heresy between the wars Hans Jonas developed a philosophy of biology that inspired European Greens and bioethicists the world over Leo Strauss became one of the most important and controversial political theorists of the twentieth century Gershom Scholem the eminent scholar of religion radically recast what it means to be a Jew Together they help us see how talk about God was adapted for talk about nature politics technology and art They alert us to the abiding salience of the divine to Europeans between the wars and beyond even among those for whom God was long missing or dead

Animal Encounters Susan Crane,2012-11-29 Traces of the living animal run across the entire corpus of medieval writing and reveal how pervasively animals mattered in medieval thought and practice In fascinating scenes of cross species encounters a raven offers St Cuthbert a lump of lard that waterproofs his visitors boots for a whole year a scholar finds inspiration for his studies in his cat s perfect focus on killing mice and a dispossessed knight wins back his heritage only to give it up again in order to save the life of his warhorse Readers have often taken such encounters to be merely figurative or fanciful but Susan Crane discovers that these scenes of interaction are firmly grounded in the intimate cohabitation with animals that characterized every medieval milieu from palace to village The animal encounters of medieval literature reveal their full meaning only when we recover the living animal s place within the written animal The grip of a certain humanism was strong in medieval Britain as it is today the humanism that conceives animals in diametrical opposition to humankind Yet medieval writing was far from univocal in this regard Latin and vernacular works abound in other ways of thinking about animals that invite the saint the scholar and the knight to explore how bodies and minds interpenetrate across species lines Crane brings these other ways of thinking to light in her readings of the beast fable the hunting treatise the saint s life the bestiary and other genres Her substantial contribution to the field of animal studies investigates how animals and people interact in culture making how conceiving the animal is integral to conceiving the human and how cross species encounters transform both their animal and their human participants
