The Vietnam War, 1954–1975

Lesson 2 Vietnam Divides the Nation

Review Questions: Outlining

DIRECTIONS: Read the lesson and complete the outline below. Refer to your textbook to fill in the blanks.

I. The Antiwar Movement Emerges

- A. As the Vietnam War dragged on, support waned because many believed that the Johnson administration was not telling the truth about the war.
- B. Many Americans believed a credibility gap existed because of inconsistencies between what was shown by media and what the administration said about the war.
- C. Students and teachers at universities held teach-ins to explain why they opposed the war, while many protesters focused on what they thought was an unfair draft system. Most of the soldiers were working-class and minority youths.
- D. As the war went on, many young men burned their draft cards while an estimated 500,000 refused to go.

Many soldiers argued that if they were old enough to fight, they were old enough to

vote. The 26th amendment gave 18-year-olds the

- a. right to vote in federal and state elections supported the war and those who opposed the war.

B. 1968: The Peace Year

- A. Senator Eugene McCarthy opposed the war and South Vietnamese lost the Tet Offensive. This attack, called the Tet Offensive, was reported. Americans, however, were alarmed that an enemy nearly defeated could launch such a large-scale attack.

On March 25, 1968, Johnson declared the nation with the announcement that

he would not seek reelection.

His announcement marked the nation turning away from the war.

- B. Bobby Kennedy was appointed to be in the lead for the Democratic Party nomination for president.

- C. In the presidential election of 1968, Republican candidate Richard Nixon was elected because he promised to bring peace to the country.

World History: Connections to Today Elisabeth Gaynor Ellis, Pearson/Prentice Hall, 2003-12 History of Western Civilization I Pauline Relyea Anderson, Eugene Newton Anderson, 1957 *Resources in Education*, 2001-10 Digital Solutions for Contemporary Democracy and Government Bwalya, Kelvin Joseph, Mutula, Stephen, 2015-04-30 The dot com revolution has brought many advances before unimagined. Of them all it may be said that none have surpassed e government in attracting a significant number of researchers and practitioners from around the world. However the question remains whether everyone is ready to join the e government movement or if some are just blindly following the latest trend. *Digital Solutions for Contemporary Democracy and Government* touches on several key issues and challenges surrounding the recent e government boom and offers practical solutions from those who have been a part of implementing e government programs internationally. Due to its breadth of discussion on a variety of topics relating to the intersection of technology with politics, democracy and government, this authoritative book is a valuable reference source for professionals, researchers and students in the field of e government, information management or knowledge management. **Government Finance Review**, 1997 *America Pathways to the Present*, 1995 **Imperialism and the Corruption of Democracies** Herman Lebovics, 2006 In this important volume Herman Lebovics, a preeminent cultural historian of France, develops a historical argument with striking contemporary relevance: empire abroad inevitably undermines democracy at home. These essays, which Lebovics wrote over the past decade, demonstrate the impressive intellectual range of his work. Focusing primarily on France and to a lesser extent on the United Kingdom, he shows how empire and its repercussions have pervaded and corroded Western cultural, intellectual and social life from the mid nineteenth century to the present. Some essays explore why modern Western democratic societies needed colonialism. Among these is an examination of the seventeenth century philosopher John Locke's prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire. In other essays Lebovics considers the relation between overseas rule and domestic life. Discussing George Orwell's tale *Shooting an Elephant* and the careers of two colonial officers, one British and one French, he contemplates the ruinous authoritarianism that develops among the administrators of empire. Lebovics considers Pierre Bourdieu's thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology, which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects. Turning to the arts, Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West. *Imperialism and the Corruption of Democracies* is a compelling case for cultural history as a key tool for understanding the injurious effects of imperialism and its present day manifestations within globalization. **Monthly Bulletin of the Providence Public Library ...** Providence Public Library (R.I.), 1898 **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress.
