This 2019 Article IV Consultation focuses on Zimbabwe s near and medium term challenges and policy priorities and was
prepared before COVID 19 became a global pandemic that has resulted in unprecedented strains in global trade commodity
and financial markets It therefore does not reflect the implications of these developments and related policy priorities The
outbreak has greatly amplified uncertainty and downside risks around the outlook The IMF staff is closely monitoring the
situation and will continue to work on assessing its impact and the related policy response in Zimbabwe and globally With
another poor harvest expected growth in 2020 is projected at near zero following a sharp contraction in 2019 with food
shortages continuing With no progress on clearing longstanding external arrears the authorities face a difficult balance of
pursuing tight monetary to reduce very high inflation and fiscal policies to address the macroeconomic imbalances and build
confidence in the currency while averting a crisis Pressures are mounting to increase spending on wages and for social
protection to mitigate the impact of the weather shocks and high inflation While the 2020 budget includes a significant
increase in social spending it is likely insufficient to meet the pressing needs *Agrarian Capitalism and the Development of
the Coffee Industry in Colonial Zimbabwe* Takesure Taringana,2019-01-29 This book analyses the development of the coffee
sector in colonial Zimbabwe within the broader context of agrarian capitalism in settler economies It unpacks the central
philosophy of statecraft based on the desire to develop Southern Rhodesia as a permanent white settler colony The
development of the coffee sector was designed to fulfil the objective of expanding economic opportunities for white settlers
and to increase their incomes in order to inspire immigration and discourage emigration Expanded incomes were similarly
vital in sponsoring the highly eulogised civilised standards of living The book casts the development of the coffee sector as an
alternative prism through which the nature of the anatomy of colonial Zimbabwean political economy can be unpacked The
book departs from the dominant macro approach in detailing the development of colonial Zimbabwean agrarian capitalism to
the micro twist which analyses sector specificities important in enhancing our understanding of the Southern Rhodesian
economy It will appeal to economic historians historians and political economists and explores various themes including
labour marketing and the role of the state in allocating productive forces *Pratiyogita Darpan* ,2008-07 Pratiyogita Darpan
