16 Intake Baragwanth:

Baragwanath Hospital, Soweto Simonne Horwitz, 2013-09-01 Baragwanath Hospital Soweto illustrates how this rapidly growing underfunded but surprisingly effective institution found the niche that allowed it to exist to provide medical care to a massive patient body and at times even to flourish in the apartheid state The book offers new ways of exploring the history of apartheid apartheid medicine and health care The long history of Chris Hani Baragwanath Hospital its full current name or Bara as it is popularly known has been shaped by a complex set of conditions Established in the early 1940s Bara stands on land purchased by the Cornish immigrant John Albert Baragwanath in the late nineteenth century He set up a refreshment post trading store and hotel on the site in what is now Soweto which was a one day journey by ox wagon from Johannesburg The hotel became affectionately known as Baragwanath Place the surname is Welsh from bara meaning bread and gwenith meaning wheat The land was then bought by Corner House Mining Group and later taken over by Crown Mines Ltd but was never mined The British government bought the land in the early 1940s to build a military hospital but by 1947 Baragwanath ceased to operate as a military hospital and under the auspices of the Transvaal Provincial Administration a civilian hospital was opened with 480 beds Patients were transferred from the non European wing of the Johannesburg General Hospital in the white area of Johannesburg Links were immediately forged with the University of the Witwatersrand and Bara would over time become one of its largest teaching centres This link brought medical students and their teachers into direct contact with apartheid in the medical sphere This book will contribute to studies of the history of apartheid that have begun to provide a more nuanced account of its workings The history of Baragwanath and of the doctors and nurses who worked there tells us much about apartheid ideology and practice as well as resistance to it in the realm of health care **Engineering and**

Diverticulosis refers to an outpouching of colonic mucosa and submucosa outside of the intestinal lumen. It commonly occurs around the penetrating blood vessels. It can occur in any segment of the bowels; however, the sigmoid colon is the most affected segment. Diverticulosis, the presence of diverticula in the colon, remains asymptomatic in most individuals but approximately 25% of people with diverticulosis will experience symptomatic diverticulosis, which is referred to as diverticular disease. In the past two decades, diverticular disease has become one of the most commonly diagnosed bowel disorders. It is seen across the globe and its incidence is high, especially in Western countries. It is estimated that in many developed countries, around 50% of the population older than 50 years is affected by diverticular disease. It was once believed to be associated with increasing age; however, in recent studies, its prevalence in younger populations has increased. In about 10% to 25% of patients with diverticulosis, the disease progresses and leads to diverticulitis. Many theories have been suggested for the different etiologies of diverticular disease, and the most common cause is believed to be a low fiber diet. It is believed that diets low in fiber are associated with increased intracolonic pressure, which leads to diverticula formation. Diverticular disease can have variable clinical presentations. Most often, it presents as abdominal pain or change in bowel habits and rectal bleeding. Its clinical picture can at times mimic inflammatory bowel disease or bowel malignancy. Its common sequelae include diverticulitis, perforation, and peri colic abscess/phlegmon. The complications of diverticular disease include abscess, fistula, and bowel strictures. Small or localized collections can be managed with intravenous antibiotics, and depending on the available resources, intervention radiology can also be used to manage such cases. CT scan is considered a more specific technique for diagnosis. It can also be used for reviewing the patient's progress to treatment with serial scans over time. It is also used for treating some complications, such as performing percutaneous drainage of abdominal abscesses. **WITS: The**

'Open' Years Bruce Murray, 2022-09. In the period between the outbreak of World War II in 1939 and the enactment of university apartheid by the Nationalist Government in 1959, the University of the Witwatersrand Johannesburg (Wits) developed as an open university admitting students of all races. This is the second volume of the history of Wits by historian Bruce Murray, with as its central theme the process by which Wits became open. The compromises this process entailed and the defence the University mounted to preserve its open status in the face of the challenges posed by the Nationalist Government. The University's institutional autonomy is highlighted by Yunus Ballim in his preface to the centenary edition of *WITS: The Open Years*. He writes: "The emerging posture of a university willing to rise in defence of academic freedom was important because this was to become infused into the institutional culture of Wits. The book looks at the University's role in South Africa's war effort, its contribution to the education of ex-volunteers after the war, its leading role in training job-seeking professionals required by a rapidly expanding economy, and the rise of research and postgraduate study. Students

feature prominently through their political activities the flourishing of a student intelligentsia the heyday of the Remember and Give Rag parade rugby intervarsity and the stunning success of Wits sportsmen and women WITS The Open Years paints a vivid picture of the range of personalities who enlivened the campus among them some well known figures in the new South Africa The book includes chapters by Alf Stadler who was Professor of Political Studies at Wits and the author of The Political Economy of Modern South Africa and Jonty Winch former Sports Officer at Wits and the author of Wits Sport
