Horsley,2017-03-06 Topics in the Book of Revelation by William R Horsley What is the Book of Revelation Is it a prophecy foretelling the end of the world Is it a vision of the apocalypse If Hollywood and a certain subset of preachers are to be believed John s final message to Christians is one only of doom and destruction But what if the real message was one of hope What if Revelation was less foresight and more

Bowing Toward Babylon Craig Watts,2017-03-08 What is being done in worship when national holidays are celebrated the American flag is displayed and honored and songs are sung that extol the nation Are these benign gestures Or could they actually be idolatrous In this insightful and persuasively argued study Craig M Watts contends the inclusion of elements of American nationalism in worship is detrimental to the integrity of Christian worship He maintains that in faithful worship the story of Jesus must be re presented and performed in such a way that the only affections and loyalty that are fostered are those Christians everywhere rightfully share To do otherwise opens the door to idolatry and leaves the church doing what Watts calls bowing toward Babylon He reviews the development of the symbols songs and gestures that celebrate America and how they were introduced into worship Watts concludes that the spirituality of American Christian nationalism does not complement the faith of the church but distorts it hindering global Christian unity and the peaceable witness of the church in a divided world

Fate in Film Thomas M. Puhr,2022-10-18 The course of events is predetermined and cannot be changed Forces beyond our control or even our comprehension shape our fates Such is the deterministic worldview embedded in a wide swath of contemporary cinema from arthouse experiments to popular genre films through both thematic concerns and narrative structures These films especially the recent spate of elevated science fiction and horror tap into this deep seated anxiety by focusing on characters who ultimately fail to transcend the patterns and structures that define them Thomas M Puhr identifies and analyzes the ways that cinema has dealt with the tension between fate and free will from Stanley Kubrick s *The Shining* to Christopher Nolan s *Tenet* He examines films that express deterministic ideas including circular narratives of stasis or confinement and fatalistic portraits of external forces dictating characters lives Puhr considers determinism at the levels of the individual the family and society reading films in which characters are trapped by past or alternate selves the burdens of family histories or oppressive social structures He explores how films such as Joel and Ethan Coen s *Inside Llewyn Davis* Ari Aster s *Hereditary* Jordan Peele s *Us* and Lucrecia Martel s *Zama* confront the limits of human agency Puhr relates deterministic themes to the nature of moviegoing In denying characters any ability to choose alternative paths these films mirror how viewers themselves can only sit and watch Recasting the works of some of today s most compelling directors *Fate in Film* is an innovative critical account of an unrecognized yet crucial aspect of contemporary cinema
