Landscapes of Collectivity in the Life Sciences Snait B. Gissis, Ehud Lamm, Ayelet Shavit, 2018-01-12 Broad perspective on collectivity in the life sciences from microorganisms to human consensus and the theoretical and empirical opportunities and challenges Many researchers and scholars in the life sciences have become increasingly critical of the traditional methodological focus on the individual This volume counters such methodological individualism by exploring recent and influential work in the life sciences that utilizes notions of collectivity sociality rich interactions and emergent phenomena as essential explanatory tools to handle numerous persistent scientific questions in the life sciences The contributors consider case studies of collectivity that range from microorganisms to human consensus discussing theoretical and empirical challenges and the innovative methods and solutions scientists have devised The contributors offer historical philosophical and biological perspectives on collectivity and describe collective phenomena seen in insects the immune system communication and human collectivity with examples ranging from cooperative transport in the longhorn crazy ant to the evolution of autobiographical memory They examine ways of explaining collectivity including case studies and modeling approaches and explore collectivity s explanatory power

They present a comprehensive look at a specific case of collectivity the Holobiont notion the idea of a multi species collective a host and diverse microorganisms and the hologenome theory which posits that the holobiont and its hologenome are a unit of adaption The volume concludes with reflections on the work of the late physicist Eshel Ben Jacob pioneer in the study of collective phenomena in living systems Contributors Oren Bader John Beatty Dinah R Davison Daniel Dor Ofer Feinerman Raghavendra Gadagkar Scott F Gilbert Snait B Gissis Deborah M Gordon James Griesemer Zachariah I Grochau Wright Erik R Hanschen Eva Jablonka Mohit Kumar Jolly Anat Kolumbus Ehud Lamm Herbert Levine Arnon Levy Xue Fei Li Elisabeth A Lloyd Yael Lubin Eva Maria Luef Ehud Meron Richard E Michod Samir Okasha Simone Pika Joan Roughgarden Eugene Rosenberg Ayelet Shavit Yael Silver Alfred I Tauber Ilana Zilber Rosenberg **IBPS Clerk 8 Year-wise Preliminary & Mains Solved Papers (2011-18)** Disha Experts,2019-07-02 IBPS Clerk 8 Year wise Preliminary Mains Solved Papers 2011 to 2018 since IBPS started conducting this exam consists of the detailed solutions of the past 8 Year papers of 4 IBPS Prelim Papers 2015 2018 and 8 Mains Papers 2011 2018 The book also provides the Trend Analysis of last 5 years

Instant Insights: Improving water management in crop cultivation Dr Amir Haghverdi, Dr Brian G. Leib, Susan A. O'Shaughnessy, Dr Manuel A. Andrade, Q. Xue, J. Rudd, J. Bell, T. Marek, S. Liu, D. S. Gaydon, Dr Robert C. Schwartz, Dr Kevin McInnes, Dr Dana Porter, 2021-12-21

This specially curated collection features five reviews of current and key research on improving water management in crop cultivation The first chapter focuses on site specific variable rate irrigation systems utilised across agriculture and examines site specific data acquisition and mining approaches such as soil mapping and zone delineation The second chapter considers the main deficit irrigation strategies used in agriculture to

improve crop water productivity It also explores the status of site specific irrigation management and its role in minimizing agricultural water use The third chapter reviews progress in winter wheat water management and water use efficiency WUE drawing on long term field experiments in the U S southern Great Plains It discusses the key relationships between yield evapotranspiration WUE and best management practices The fourth chapter considers the key techniques for improving rice water productivity through enhanced irrigation practices aiming to reduce irrigation water use in rice cultivation such as the Alternate Wetting and Drying technique The final chapter examines the main irrigation methods used in dryland sorghum production It also reviews the relationship between soil properties and irrigation management

US Health: A Failed System: Liaropoulos, Lykourgos, 2016-10-29 Health has been one of the most frequent issues arising in the Social Policy debate for the last 60 or more years The answers given vary according to political ideology economic expediency and the moral standing of individuals and society The sources of funding are essentially two either the individual directly or a larger group acting on his behalf In the second case we have two main categories The individual is either covered by private for profit insurance or by a public insurance scheme financed by mandatory employment contributions and or by taxes on income and or wealth The economic implications of each form of health insurance are immense for individuals employers the government and for the economy as a whole The main differentiation is the position of health care in the value system of society If health care is considered a right its financing must be similar to that of other public goods or rights such as justice national security personal safety basic education etc At the same time the provision of all public goods is a public responsibility and government is judged by how well it measures up to this responsibility If on the other hand health care is considered a good bought and sold on the market then it is up to individuals to provide for themselves Obviously this fundamental issue belongs to the sphere of politics and is up to society to judge according to its code of ethics The time to decide has come in America somewhat belatedly but in a way more acute than ever The health of individuals but also and mainly the economic health of the nation depends on the decision

Aerospace Medicine and Biology, 1990 A selection of annotated references to unclassified reports and journal articles that were introduced into the NASA scientific and technical information system and announced in Scientific and technical aerospace reports STAR and International aerospace abstracts IAA

Water management for sustainable agriculture Prof. T. Oweis, 2018-07-09 Comprehensive review of the range of water resources from groundwater and surface water to rainwater floodwater and waste water Discusses advances in irrigation techniques from surface irrigation to micro drip irrigation and fertigation Assesses methods for optimising agricultural water use in rainfed and other systems
