Statistics Dept., 2016-08-31 This technical assistance TA mission on Government Finance Statistics GFS was conducted during April 18-29 2016 The main purpose of the mission was to identify the sources of statistical discrepancies and provide further support to strengthen the compilation and dissemination of GFS in line with international standards set out in the Government Finance Statistics Manual 2014 GFSM 2014 US-China Rivalry and Taiwan's Mainland Policy Dean P. Chen, 2017-03-21 This book examines changes in Taiwan's policies toward Mainland China under former Republic of China ROC President Ma Ying-jeou 2008-16 and considers their implications for US policy toward the Taiwan Strait In recent years the People's Republic of China PRC's increasingly assertive foreign policy behaviors have heightened tensions with its regional neighbors as well as the United States However under the Kuomintang KMT administration of Ma Ying-jeou Taiwan

discounted Beijing's coercion and pursued rapprochement on the basis of the 1992 consensus which was a tacit agreement reached between the KMT and Chinese Communist Party in 1992 that both Taiwan and the mainland belong to one China though that China is subjected to either side's different interpretations The author of this volume analyzes why Taipei underreacted towards the security challenges posed by the PRC and chartered policies that sometimes went against the interests of Washington and its allies in the Asia Pacific The KMT was pushing for nation building initiatives to rejuvenate the ROC's one China ruling legitimacy and to supplant pro independence forces within Taiwan The island's deeply fragmented domestic politics and partisanship have led policy elites to choose suboptimal strategy and thereby weakening its security position The implications from this study are equally applicable to Taiwan's newly elected Democratic Progressive Party government that has taken office in 2016
