Industrial Applications of Green Solvents Inamuddin, Mohd Imran Ahamed, Abdullah M. Asiri, 2019-06-20 Green chemistry aims at reducing pollution and avoiding hazardous waste in the environment as well as in a number of industrial applications including chemical pharmaceutical paint and leather industries The book focuses on new applications of green solvents water ionic liquids supercritical carbon dioxide terpenes in such areas as chemical synthesis including lipase catalyzed reactions organic synthesis esterification reactions gas separation membranes environment friendly products low energy requirement processes and alternatives to hazardous substances Research Handbook on Methods and Models of Competition Law Deborah Healey, Michael Jacobs, Rhonda L. Smith, 2020-11-27 This comprehensive Handbook illuminates the objectives and economics behind competition law It takes a global comparative approach to explore competition law and policy in a range of jurisdictions with differing political economies legal systems and stages of development A set of expert international contributors examine the operation and enforcement of competition law around the world in order to globalize discussions surrounding the foundational issues of this topic In doing so they not only reveal the range of approaches to competition law but also identify certain basic economic concepts and types of anticompetitive conduct that are at the core of competition law *Food and Potential Industrial Applications of Bambara Groundnut* Samson A. Oyeyinka, Beatrice I. O. Ade-Omowaye, 2021-10-06 Bambara groundnut *Vigna subterranea* is a crop native to the Bambara tribe of Mali and is grown as a subsistence crop in Africa Recent advances in research however have brought the crop to the forefront of the sustainable agriculture movement The Bambara plant is highly drought tolerant and rich in protein and carbohydrates including starch These macromolecules have enormous industrial potentials For example the starch in Bambara grain has been found to exhibit higher double viscosity than conventional corn starch Modified Bambara groundnut starch has been used to produce edible bioplastics that could be upgraded industrially to suit the fourth industrial revolution shift Bambara plants are also a natural source of soluble fiber which is gluten lactose and cholesterol free with potential as a stabiliser thickener and gelling agent as well as a cryoprotectant in frozen products The health benefits include lowering of cholesterol levels levelling of blood glucose and as a detoxing aid Furthermore several researchers have explored the grain either alone or as composite with cereal and tubers for the development of value added products Food and Potential Industrial Applications of Bambara Groundnut presents in a clear coherent way the research findings on Bambara grain and its status as a promising food and industrial crop Mobile Learning Applications in Early Childhood Education Papadakis, Stamatios, Kalogiannakis, Michail, 2019-11-29 Mobile technologies combined with an interdisciplinary approach to knowledge and organization of learning experiences that are meaningful to children could create a creative and interactive learning environment different from that of traditional teaching Making good use of mobile learning with appropriate devices will increase the learning motivations of the students and help them bring about positive performance Mobile Learning

Applications in Early Childhood Education is a collection of innovative research on the methods and applications of mobile learning techniques and strategies within diversified teaching settings While highlighting topics including computational thinking ubiquitous learning and social development this book is ideally designed for researchers teachers parents curriculum developers instructional designers academicians students and practitioners seeking current research on the application of mobile technology within child education

Polyimide for Electronic and Electrical Engineering Applications Sombel Diahm,2021-05-05 Polyimide is one of the most efficient polymers in many industries for its excellent thermal electrical mechanical and chemical properties as well as its easy processability In the electronic and electrical engineering industries polyimide has widely been used for decades thanks to its very good dielectric and insulating properties at the high electric field and at high temperatures of around 200 C in long term service Moreover polyimide appears essential for the development of new electronic devices where further considerations such as high power density integration higher temperature thermal conduction management energy storage reliability or flexibility are required in order to sustain the growing global electrical energy consumption This book gathers interdisciplinary chapters on polyimide in various topics through state of the art and original ongoing research

Evolutionary Data Clustering: Algorithms and Applications Ibrahim Aljarah,Hossam Faris,Seyedali Mirjalili,2021-02-20 This book provides an in depth analysis of the current evolutionary clustering techniques It discusses the most highly regarded methods for data clustering The book provides literature reviews about single objective and multi objective evolutionary clustering algorithms In addition the book provides a comprehensive review of the fitness functions and evaluation measures that are used in most of evolutionary clustering algorithms Furthermore it provides a conceptual analysis including definition validation and quality measures applications and implementations for data clustering using classical and modern nature inspired techniques It features a range of proven and recent nature inspired algorithms used to data clustering including particle swarm optimization ant colony optimization grey wolf optimizer salp swarm algorithm multi verse optimizer Harris hawks optimization beta hill climbing optimization The book also covers applications of evolutionary data clustering in diverse fields such as image segmentation medical applications and pavement infrastructure asset management

Advanced Applications for Artificial Neural Networks Adel El-Shahat,2018-02-28 In this book highly qualified multidisciplinary scientists grasp their recent researches motivated by the importance of artificial neural networks It addresses advanced applications and innovative case studies for the next generation optical networks based on modulation recognition using artificial neural networks hardware ANN for gait generation of multi legged robots production of high resolution soil property ANN maps ANN and dynamic factor models to combine forecasts ANN parameter recognition of engineering constants in Civil Engineering ANN electricity consumption and generation forecasting ANN for advanced

process control ANN breast cancer detection ANN applications in biofuels ANN modeling for manufacturing process optimization spectral interference correction using a large size spectrometer and ANN based deep learning solar radiation ANN prediction using NARX model and ANN data assimilation for an atmospheric general circulation model **Handbook of Research on Nanoemulsion Applications in Agriculture, Food, Health, and Biomedical Sciences** Ramalingam, Karthikeyan, 2021-12-03 Nanoemulsions are produced by mixing an oil phase with an aqueous phase under shear pressure This procedure yields uniform populations of oil droplets ranging in diameter from 200 to 800 nm that are kinetically stable colloidal substances with enhanced properties compared to the conventional emulsion substances Nanoemulsions have broad potential applications in agriculture food health and biomedical sciences The Handbook of Research on Nanoemulsion Applications in Agriculture Food Health and Biomedical Sciences focuses on the aspects of nanoemulsion like synthesis characterization and more and examines recent trends in their applications within a variety of relevant fields Nanoemulsions have broad application in many different fields without emulsification process product development would not be possible Covering topics such as cancer treatment healthcare applications and food manufacturing this book is essential for scientists doctors researchers post graduate students medical students government officials hospital directors professors and academicians **Applying large animals for developmental study and disease modeling** Yongye Huang, Jacek Z. Kubiak, Lin Yuan, Sen Wu, Feng Yue, 2023-06-21 *Living customary tenure systems in Madagascar: An overview* McLain, R., Ranjatson, P., Nomenjanahary, A.R.F., Heidenrich, T., Rakotonirina, J.M., Razafimbelo, N.T.R., 2023-12-04 **From Bioinspired Systems and Biomedical Applications to Machine Learning** José Manuel Ferrández Vicente, José Ramón Álvarez-Sánchez, Félix de la Paz López, Javier Toledo Moreo, Hojjat Adeli, 2019-05-09 The two volume set LNCS 11486 and 11487 constitutes the proceedings of the International Work Conference on the Interplay Between Natural and Artificial Computation IWINAC 2019 held in Almer a Spain in June 2019 The total of 103 contributions was carefully reviewed and selected from 190 submissions during two rounds of reviewing and improvement The papers are organized in two volumes one on understanding the brain function and emotions addressing topics such as new tools for analyzing neural data or detection emotional states or interfacing with physical systems The second volume deals with bioinspired systems and biomedical applications to machine learning and contains papers related bioinspired programming strategies and all the contributions oriented to the computational solutions to engineering problems in different applications domains as biomedical systems or big data solutions Plant Specialized Metabolites Jean-Michel Mérillon, Kishan Gopal Ramawat, 2025-04-29 This book offers a comprehensive and authoritative review of the biological and ecological roles played by specialized metabolites secondary metabolites in the life cycle of plants and it also covers the latest biotechnological advances in metabolite production and various industrial applications Divided into three parts the book starts with an outline of the diverse biological effects of specialized metabolites on plant microbe and plant insect interactions soil health

reproduction and human welfare In this first part readers will find topics such as the Importance of Plant Secondary Metabolites in modern therapy melatonin and inflammatory and immune modulated diseases antimicrobial and antiprotozoal potential of specialized metabolites the use of plant specialized metabolites in aromatherapy the role of tannins in cardiovascular diseases a pharmacological perspective on isoflavones and noncommunicable diseases algal secondary metabolites and plant specialized metabolites used as aphrodisiacs In Part II chapters present an overview of the ecological roles played by plant specialized metabolites in pollination plant defence agriculture and weed management among others In the third and final part of this book readers will discover the latest biotechnological approaches for bioactive compound production and identification including the discovery of bioactive specialized metabolites based on metabolomic approaches and a perspective on the industrial applications of plant specialized metabolites Given its breadth this book is of interest to botanists biotechnologists phytochemists industrialists environmentalists biologists and all those involved in the production and use of secondary specialized metabolites

Advances in Natural Gas: Formation, Processing, and Applications. Volume 2: Natural Gas Sweetening Mohammad Reza Rahimpour, Mohammad Amin Makarem, Maryam Meshksar, 2024-02-10

Advances in Natural Gas Formation Processing and Applications is a comprehensive eight volume set of books that discusses in detail the theoretical basics and practical methods of various aspects of natural gas from exploration and extraction to synthesizing processing and purifying producing valuable chemicals and energy The volumes introduce transportation and storage challenges as well as hydrates formation extraction and prevention Volume 2 titled Natural Gas Sweetening introduces in detail different natural gas sweetening methods The book covers absorption with different solvents such as alkalis amin blends ionic liquids etc which is one of the important sweetening techniques as well as natural gas sweetening with adsorption based technologies utilizing various materials including zeolites carbonaceous sorbents metal oxides etc Is also discusses membrane based processes with various types such as ionic liquid polymeric MOF mixed matrix dense metal membranes and includes novel technologies for sweetening natural gas by using plasma and supersonic separators Introduces natural gas sweetening concepts and challenges Describes various absorption and adsorption processes for natural gas sweetening Includes various membrane technologies for natural gas sweetening

Metal Nanocomposites for Energy and Environmental Applications Swatantra P. Singh, Avinash Kumar Agarwal, Kamlesh Kumar, Simant Kumar Srivastav, 2022-01-11 This book focuses on recent developments in metal nanomaterials and nanocomposites for energy and environmental application such as pollution control in water air and soil pollution The chapters incorporate carbon based metal based and metal organic framework based nanomaterials and nanocomposites for emerging contaminants pharmaceuticals and microplastics and other traditional pollutants remediation along with energy storage sensing of air and water pollutants and carbon capture storage CCS This book will be of interest to those in academia and industry involved in energy and environmental science engineering research
