Beth Allan,2013-06-25 It's 2012 and the world is in the midst of a geopolitical meltdown As earthquakes and floods threaten the land solar flares and space junk threaten the sky Nestled in the Rocky Mountains Valhalla is one of the last strongholds of civilization in the USA Except the city is divided After the council built a Wall to keep refugees out the inner districts fought for independence and the right to let them in Meanwhile one girl flees her safe suburban home in search of the people who will be partying till the very end and finds true love along the way Afterlives is the sequel to Afterhours which was based around a nightclub in 2003 Back then business was good and the parties were plenty now the club is closed and almost 20 people call it home What will become of the gang Who will survive And if they die where if anywhere will they go **Quantum Entity | We Are All ONE** Bruce M. the reality of global business influence and national security to prove that we are all ONE **The World Turned Inside Out** Lorenzo Veracini, 2021-09-21 A history and theory of settler colonialism and social control Many would rather change worlds than change the world The settlement of communities in empty lands somewhere else has often been proposed as a solution to growing contradictions While the lands were never empty sometimes these communities failed miserably and sometimes they prospered and grew until they became entire countries Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination this book uncovers and critiques an autonomous influential and coherent political tradition a tradition still relevant today It follows the ideas and the projects and the failures of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances those who wanted to protect endangered nationalities and those who intended to preempt forthcoming revolutions of all sorts including civil and social wars They displaced and moved to other islands and continents beyond the settled regions to rural districts and to secluded suburbs to communes and intentional communities and to cyberspace This book outlines the global history of a resilient political idea to seek change somewhere else as an alternative to embracing or resisting transformation where one is **Handbook of Nordic New Religions** ,2015-06-24 When James R Lewis one of the editors of the current collection first moved to Norway in late 2009 he was unprepared to discover that so many researchers in Nordic countries were producing innovative scholarship on new religions and on the new age subculture In fact over the past dozen years or so an increasingly disproportionate percentage of new religions scholars have arisen in Nordic countries and teach at universities in Denmark Finland Norway Sweden and the Baltic countries Nordic New Religions co edited with Inga B T llefsen surveys this rich field of study in this area of the world focusing on the scholarship being produced by scholars in this region of northern Europe
