Heavenly Father the Immutable Holy God Steven G. Miller,2022-05-19 I have been on a long spiritual journey studying Christian theology Overtime it became abundantly oblivious to me that if the Christian faith is really true it is not being given the weight suggested by what we profess to believe There are aspects of what we profess to believe that are very comforting the Love of God for one There are aspects of Christianity that are hard to understand Hell as another example These two aspects of our faith coexist in the immutable nature of God Neither of these aspects of God s nature can ever be diminished or compromised Since God cannot compromise His intrinsic nature these truths give rise to our need for a all sufficient Savior This book is exploring the wonders of God s salvific work to bring sinners into a right standing with our Heavenly Father [The Immutably Holy God the God Who Wants to Be Our Heavenly Father](#) Steven G. Miller,2023-06-16 Over the years it became increasing clear that if the Christian faith is really true it is not being given the seriousness of what we profession As an example there are aspects of the Christian faith that are very comforting the love of God There are also aspects of the faith that are hard to fully grasp the immutable holiness of God These two aspects of God s nature coexist in God s perfect nature neither of which can ever be diminished or compromised Therefore this gives rise to a perceived problem how can God love sinners and still remain uncompromisingly holy This book explores the wonders of God s salvific work to bring sinners into a right standing with Himself In this book you will find the straightforward answer to the way of salvation the motivations to live a life that is eternally meaningful and explore essential doctrines that have been neglected

Toward a Theory of Radical

Origin John David Pizer, 1995-01-01 This provocative book addresses one of the central and most controversial branches of Western thought the philosophy of origin In light of recent poststructuralist principles such as alterity difference and dissemination the philosophy of origin seems to exemplify the repressive reactionary tendencies of much of the Western philosophical tradition John Pizer aims to overturn this recent antipathy to the philosophy of origin He ably summarizes poststructuralist critiques of that earlier philosophical tradition then turns to five German thinkers Nietzsche Benjamin Rosenzweig Heidegger and Adorno who developed philosophies of origin that effectively anticipate and counter poststructuralist attacks These are thinkers who in one way or another influenced recent generations of poststructuralist thinkers Pizer argues however that rather than do away with the notion of origin altogether as in the works of the most thoroughgoing poststructuralists these philosophers developed theories in which origin is always multiple and plurivalent In the writings of these seminal German thinkers origin becomes origins and authentic origins are inherently plural and divergent A valuable engrossing account of a wide range of thinkers and their complex relations Pizer's book recovers the notion of origin for an intellectual world that has come to value multiplicity openness and diversity

Artificial Intelligence virtual identity and digital autonomy the voice of the living soul is being drowned by the noise of systems designed to mimic it As AI learns to speak create analyze and even simulate empathy the human race stands at a spiritual crossroads Will we evolve with conscience or simply with code Will we live as soulless machines or as spirit led beings navigating a world of illusion with truth clarity and divine awareness This book is for those who are waking up in the middle of the night sensing that something deeper is at stake For those who feel a holy restlessness in the face of artificial perfection For those who believe the soul was not made to be silent or outsourced This book is about the sacred call to Remembrance Not Resistance Through Fear This is not a manifesto of fear It is a manuscript of remembrance In the storm of synthetic intelligence let us remember who we are not just carbon based creatures but soul born beings created with eternal essence and divine purpose The call is not to war against technology but to walk with discernment Not to isolate from systems but to remain inwardly aligned The goal is not to demonize the rise of intelligence but to recenter the throne of wisdom in the heart of humanity We are not here to escape this coming age that it is upon us the living soul is here to embody truth within it
