The iPINIONS Journal Anthony Livingston Hall, 2008-04-27 ANTHONY LIVINGSTON HALL COMMENTS ON Bush's legacy of support for Africa I was dismayed by the number of people who refused to believe that Bush had done more for Africa than any other US president notwithstanding testimonials I proffered from renowned crusaders for African development like Sir Bob Geldof and Bono to support this claim Oprah's school for African girls I applaud Oprah for founding this school for the same reason I applauded Madonna for adopting that African boy She is fulfilling a need which honors our shared humanity in a way that few of us can afford or are even conscientious enough to do Native Americans ethnically cleansing blacks from their tribes Indeed I do marvel at this curious thing that they would rather be condemned as racists for expelling blacks than be criticized as niggards for hoarding their gambling loot French President Nicolas Sarkozy's love affair with the US Sarkozy displays a Blairite affinity for America that any self-respecting Frenchman must find particularly gauling Bungled terrorist attacks in London and Glasgow Wannabe suicide bombers rammed their jeep packed with explosives into Glasgow Airport on Saturday morning shouting Allah Allah Allah no doubt hoping to go off in a blaze of glory for eternal assignments with their apocryphal 72 virgins Steroids in baseball In fact steroid use has flourished in baseball and other professional sports pursuant to an open conspiracy among players and team owners to feed the gladiatorial lust of fans who want to see bigger stronger and faster cyborgs perform for their atavistic enjoyment *The Death Proclamation of Generation X* Maxim W. Furek, 2008 Taking a hard penetrating look at the despondent heart of darkness of the 1990s *The Death Proclamation of Generation X* is a probing chronicle of America's thirteenth generation caught between the idealistic Baby Boomers and the well-financed Generation Y Generation X was scapegoated and dismissed without the chance to prove themselves Blending tenets of psychology sociology and cultural anthropology author Maxim Furek offers a unique perspective to the post-modernist discourse by exploring the impact that personalities such as Andrew Wood Kurt Cobain Layne Staley River Phoenix Marilyn Manson and Anna Nicole Smith left on that generation Evaluating the psychological and sociological variables of goth grunge and heroin Furek weaves a dark tapestry of this unique demographic group born between 1965 and 1978 *The Death Proclamation of Generation X* pieces together the complexities of Generation X to acknowledge their individuality honor their existence and to celebrate their future They are a group with their own identity of music attitude and culture The resilience of Generation X is but another example of the power of this special collection of people a group of highly skilled and adaptive individuals **Forensics** Harry A. Milman PhD, 2020-10-29 Carrie Fisher also known as Princess Leia from Star Wars had been abusing cocaine and other pharmaceuticals for many years so when it was announced that she died from sleep apnea I was skeptical A more plausible explanation would have been that she died from a drug overdose A review of the medical examiner's report revealed that the Fisher family refused to give permission for an autopsy and toxicology tests to be done Constrained by these limitations the coroner labeled the manner of death

Society In Repair

Alex T. Wolf,2020-12-03 It seems like a fairy tale but not too long ago

there were rational people who ran the Republican Party In these divisive times we don t have very bright politicians to look up to anymore How did the party of Lincoln become the party of right wing nut jobs Republicans have gone crazy who keep on convincing themselves that the Democrats are evil and the Democrats with their ugly threats have become what they claim to hate With SOCIETY IN REPAIR it will prove that no one is immune to stupidity As a whole nation we have been divided so politically that we hate anyone who disagrees with our own personal views But what if a common human emotion could unite America as a whole again like humor Society In Repair takes a non partisan view on the issues that really matter Issues including sexual abuse climate change drug addiction and most importantly why Americans have lost their sense of humor The constant degradation of humanity in America shows a clear insight into these dramatic days of our Nation s life Society In Repair is here to remind us what it means to be American even though the American story has not always been great But the belief in Americans of progress and change keeps America going in the darkest of times

Criminal Bodies in the West

Melissa Schrift,2020-05-21 This book explores the cultural meanings of the criminal body in the west through historical and multidisciplinary frameworks examining both how the criminal corpse was viewed as a repository of power and how it held significant cultural meaning as material relic Authors situate the criminal body at different historical junctures to examine ways in which the criminal corpse was displayed and managed for social political magical and medicinal powers and purposes They explain how this legacy persists in significant ways in the contemporary west primarily through the commodification of criminal bodies in popular and public displays The role of notorious criminal bodies in contemporary culture also reverberates in political and scientific realms in which criminal bodies often carry symbolic meanings related to ambivalence over interpretations of death Drawing on examples from history as well as more contemporary criminal bodies

the book will be of interest to those studying death and criminology and show how the criminal body can retain an iconic status in the collective memory of the living This book was originally published as a special issue of *Mortality* MD Linda Meilink with Patrick Rhoades, 2009-11-01 Fibromyalgia is listed as one of the top 10 most painful conditions in medicine but many doctors still do not believe in it or if they do they have a vague notion of a collection of mild symptoms that they attribute to stress menstrual problems weight gain depression or hysteria FMS a common term for fibromyalgia attacks men and women of all ages even children and varies in intensity Because doctors do not like to treat conditions they don't understand patients are often ignored denied pain relief shuttled off to other experts or filled with powerful prescription drugs that may add new and confusing symptoms This book will help take charge of the condition and find trusted physicians in order to obtain relief

Female Corpses in Crime Fiction Glen S. Close, 2018-10-10 This book examines the central significance of sexualized female corpses in modern and contemporary Hispanic and Anglophone crime fiction Beginning with the foundational detective fictions of the nineteenth century it draws from diverse subgenres to describe a transatlantic tradition of necropornography characterized by lascivious interest in female cadavers dissection morgues femicide and snuff movies Hard boiled and police procedural classics from the U S and the U K are juxtaposed with texts by established Spanish and Spanish American genre masters and with obscure works that prefigure the contemporary transmedial boom in corpse centered fictions The rhetoric and aesthetics of necropornographic crime fiction are related to those of popular crime journalism and forensic science television dramas This study argues that crime fiction has long fixated disproportionately on the corpses of beautiful young white women and continues to treat their deaths and autopsies as occasions for male visual pleasure male subjective self affirmation and male homosocial bonding
